Description of Proposed Works

Please describe the proposed works

Proposal: To replace two existing barn-style wooden doors on garage with double-skinned insulated aluminium roller doors that match the colour of the existing doors and have 77ml horizontal laths to remain in keeping with the area as much as possible. The garage is located on the side of the boundary of the property, and is not attached to the detached property. The new doors will improve the appearance and functionality of the garage, while preserving the look and feel of the area.

Reasoning:

- Existing doors are not fit for purpose: Replacement is necessary as the current garage doors are dilapidated and rotting.
- Replacement with like for like garage doors pose safety concern: Existing doors open outwards directly onto a public footpath which, when opening the doors from the inside of the building to drive a vehicle out of it creates a public safety concern because there is no vision of the footpath from the inside while doing so.
- Minimal impact on conservation area: The new doors will be the same colour as the existing doors and have 77ml horizontal laths to remain in keeping with the look and feel of the area. Furthermore, the garage is not attached to the house. It is situated opposite Nagas restaurant on Portway Lane and although it is within a conservation area, it is the only building on Portway Lane that is within the boundary of the conservation area and all other buildings are non-listed/protected buildings. In fact, the property directly to the right of the garage has UPVC windows and doors. Therefore, we are of the opinion that there will be little to no impact to the look and feel of Portway Lane.
