Description

Explanation for Proposed Demolition Work

Why is it necessary to demolish all or part of the building(s) and/or structure(s)?

The existing building is predominantly single storey with an area of two storey facilities in the centre. The brief for the site sought the development of 20-25 one and two bed apartments, which through initial capacity studies were unable to be accommodated within the existing volume of the building. The retention of the ground floor and removal and other existing single storey roof scape and small area of first floor, allowed an increase in the capacity of the existing building footprint whilst working to retain as much of the existing structure as possible.
