

Mr Malcolm Clark,
Chair of the Wiltshire Badger Group

To whom it may concern,

On 26th November 2025, I visited, The Lodge, Broad Hinton, Wiltshire, SN4 9PA to establish if there is

an active badger sett on the property. The survey had been requested by Miss Skillen, who is considering

applying for planning permission to build a property on the site.

I quickly established that there is one, unused entrance with a compacted spoil heap outside the entrance.

At my request sand had been placed in the entrance on 18th November to help establish if badgers were

entering/exiting the location. There were no footprints. There was also debris in the entrance which

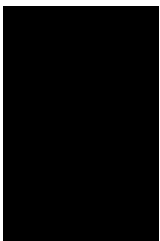

would impede access.

It is my opinion that the sett is unused and has been for a considerable time.

Yours faithfully,

Malcolm Clark

Chair Wilts Badger Group
