Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The proposed scheme would not involve disturbance or removal to the existing hedgerow. Therefore it is judged that the proposed development would result in minimal disruption to the existing boundary treatments and would not negatively impact on the biodiversity value of the application site.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Details of the pre-application advice received

This pre application advice relates to an area of land located on Winsley Hill accessed from an existing vehicle gate from Blackberry Lane. The application site is located within the West Wiltshire Green Belt, within a Special Landscape Area, just outside the Cotswold Area of Outstanding National Beauty. The application site also falls within the recreational impact zone of the Bath and Bradford on Avon Special Area of Conservation for bats.

This pre-application enquiry proposes the erection of a polytunnel on a smallholding of land of approximately 2 acres that is currently served by an existing access off Blackberry Lane. The application site has an existing glasshouse and barn on the agricultural land, used for market gardening purposes.

Based on the information provided, it is considered that the proposed scheme would be acceptable.
