Dear Sirs,

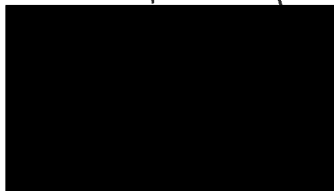

PLANNING APPLICATION PL/2025/09378.

I refer to the above planning application and would like to make the following observation.

Temporary camping for RATS is already in place on the West side of the Fairford Airfield. Any extension to camping should be allowed in fields adjoining that and not in a field behind private houses which will cause residents total disruption & distress.

Please consider this request:

Yours faithfully,

P. CROFTON
