Hi Hannah,

I hope you are well and HNY to you.

I have received amended plans for the above application which is the Technical Details Stage of a previous PiP application in Great Cheverell. You kindly provided comments and asked for amended plans showing the required visibility splay and noted that no EV charging point had been shown. The attached plan has been updated wrt to the visibility splays and the agent has confirmed that the proposal will make explicit provision for a 7KW/h EV home charging, stating that EVC provision is a matter that is now covered under Part S of the Building Regulations and is no longer a planning matter.

Please can you let me know if you would like to be formally reconsulted on the amended plan and if so, how long you would like?

I look forward to hearing from you.

Many thanks,
Helena

Helena Carney (MSc)
