The submitted details shall include depth of reveal, details of heads, sills and lintels, elevations at a scale of not less than 1:10 and horizontal/vertical frame sections (including sections through glazing bars) at not less than 1:2. The works shall be carried out in accordance with the approved details.

Reason for Decision:

Details initially submitted have been reviewed by the Council's Conservation Officer who considers the details to be acceptable subject to a minor amendment to include a horizontal glazing bar on W1, W3, W4 and W6. The revised details specified above have been received and reviewed by the Local Planning Authority and it is considered acceptable as the details now include a horizontal glazing bar on W1, W3, W4 and W6, in line with the Council's Conservation Officer's advice. The submitted details are therefore considered to satisfy the requirements of condition 3 of planning permission PL/2024/09839.

Please note that in accordance with national planning guidance, discharge of condition applications are procedural in nature and do not require public consultation. While third-party representations may occasionally be received, they are not formally invited and do not form part of the statutory decision-making process. The assessment of this application has been based solely on whether the submitted details satisfy the requirements of the relevant planning condition(s).

This letter acts as official confirmation and therefore I suggest that you attach it to the decision notice as evidence that you have complied with the requirements of the relevant condition(s).

Yours faithfully
