Subject: RE: PL/2025/09289

Dear Becky,

I have seen that there is editorial regarding this application in the Salisbury Journal this week. There are 2 errors I wanted to mention – firstly NO new footpath is being installed –(if this refers to any public footpath). The application merely states that the court will be visible in the distance from an existing public footpath. Secondly that there are only 4 (not 8 as stated in the journal) lighting columns – each would have 2 lights on them.

Yours,

Caroline Floyd
