2745mm

I- Signage Depth
12mm

K- Bottom Trim
304.8mm

L- Door to outside wall
127mm

M- Door frame to edge of wall
3063.24

Materials and colours proposed for Shop Front

As shown new paint to be applied to restore peeling paint and to refresh colours as shown above and below.

Front walls Masonry:

Little Greene - 'Slaked Lime Mid'

The paint used is Weathertext AP77 which has a high vapour permeability SD value meaning its highly breathable.

Door and window frames:

Little Greene- 'Puck' mixed in Sadolin Superdec exterior satin paint.

*Puck is a strong shade of green paint discovered as part of Little Greenes collaboration with the National Trust and therefore a heritage colour.

Top and Bottom Skirtings:

Black satin paint
