Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

We currently have an existing structure in our garden which was built in 2020 under permitted development. This was built for leisure use as a summer house and garden shed. The overall size of this structure covers 12 sq/meters and it is split into two sections by an internal wall; one section is used as a garden shed and the other section as a summer house. This section of the existing structure measures 4.5 sq/meters.

I wish to apply for change of use in relation to the summer house section of the existing structure so that I can use it as a small scale, one to one dog grooming salon.

The existing structure is in a fully enclosed private garden and requires no further exterior changes or extensions to be made.

I confirm that the land is not protected or listed.

The existing structure is already fully insulated and has double glazed windows and doors (which will assist to minimise noise). All electrics and plumbing have been installed and approved to registered standards and I will be putting all the relevant insurances in place.

I wish to operate the business initially 3 days a week (possibly increasing to 5 days a week if demand allows), between the hours of 8.30am and 5.30pm. As I will be a one to one dog groomer there will only ever be myself (no employees) and one dog in the salon at any one time. I intend to groom between 1 and 3 dogs per day and each dog will be collected by its owner before the next one arrives - I will not be holding dogs in crates whilst grooming others and any dog under my care will be kept under control at all times. Customers and their dogs will be able to access the salon via existing side access to our garden (which is gated so there is no risk of dogs escaping).

We have a large driveway which has space for 4 cars and during my proposed opening times there will be 2 spaces available for use by customers dropping off and collecting their dogs. As I will only be grooming a small number of dogs each day, one at a time, there will only ever be one additional car at a time parking on our driveway for between 10 and 15 minutes while customers drop off and collect their dogs. I confirm there are no additional parking needs. I will be offering a collect and drop off service and many local customers will likely walk their dogs to the salon thereby minimising any potential increase in traffic.

Any waste produced as a result of the business will be removed by me rather than included within household waste.

I confirm that there will be no external advertising.

I am currently training to become a dog groomer and will complete my training in March 2026. Whilst training I have installed a bath and table in the summer house section of the existing structure for personal use to enable me to groom my own dog at home. However, I am not using the space for commercial use - hence my application for change of use.

Has the work or change of use already started?

Existing Use

Please describe the current use of the site

The existing structure was built for leisure use as a summer house and garden shed in 2020 and has been used as such since that time.

As mentioned on the previous page, whilst training as a dog groomer I have installed a bath and table in the summer house section of the existing structure for personal use to enable me to groom my own dog at home. However, I am not using the space for commercial use - hence my application for change of use.

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

I am applying for change of use only.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
☒ No
