Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Erection of one polytunnel on a field at Galteemore Farm for the purpose of cut flower production. Polytunnel footprint 3.05 m x 7.62 m. Height 2.13 m. I will be renting adjacent land and wish to put up a polytunnel to support the use of the land for cut flower production. The polytunnel will be used to propagate plants, and to extend the time period in which high quality crops can be grown in spring and autumn, thereby contributing to the viability of my new small business. The business in turn will involve a significant diversification of crops grown on adjacent land, contributing to biodiversity in the area. The site is within the Avebury World Heritage Site, which is why I have been advised that I need to apply for planning permission. However, the proposed structure is small, and visibility of the proposed site is limited. From the places where it can be seen, it will appear as a small structure in front of some large barns and will therefore be in keeping with the current appearance of the agricultural land. The site is not visible at all from the south or west as the ground is private land which rises slightly to the south, and there are no footpaths in that direction. The site is adjacent to large barns to its west. From the north and east, it is partly visible from limited small sections of the A4. From the Silbury Hill car park and nearby paths, the polytunnel would be mostly or entirely screened by the hedge along the south of the A4, because the ground at Silbury Hill is lower than the site. Generally only the top section of the barns next to the polytunnel site can be seen. From the higher ground to the northeast of Silbury Hill, the site is mostly screened by trees. There are small areas of high ground from which it would be partly visible in front of the larger barns, at a distance of around 1km. As there is already a group of large agricultural buildings there, the polytunnel would be visually in keeping with the use of the site as a farm. I will make suitable plantings around the polytunnel to soften its appearance.

Has the work or change of use already started?

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
- ☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The footprint of the polytunnel will be 23.24 square metres. It will cover only bare arable land which is not a priority habitat. No trees of any kind will need to be removed.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

- ☐ Mains sewer
- ☐ Septic tank
- ☐ Package treatment plant
- ☐ Cess pit
- ☒ Other
- ☐ Unknown

Other

there will not be foul sewage; this is a small construction for agricultural use only.

Are you proposing to connect to the existing drainage system?

- ☐ Yes
☒ No
☐ Unknown

Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

- ☒ Yes
☐ No

If Yes, please provide details:

Waste will be small volumes of plant material, which I will compost on adjacent land.

Have arrangements been made for the separate storage and collection of recyclable waste?

- ☐ Yes
☒ No

Trade Effluent

Does the proposal involve the need to dispose of trade effluents or trade waste?

- ☐ Yes
☒ No

Residential/Dwelling Units

Does your proposal include the gain, loss or change of use of residential units?

- ☐ Yes
☒ No

All Types of Development: Non-Residential Floorspace

Does your proposal involve the loss, gain or change of use of non-residential floorspace?

Note that 'non-residential' in this context covers all uses except Use Class C3 Dwellinghouses.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Amendments Summary

I have addressed all the points raised in the email sent 13/10/25 explaining why the application was invalid. I have used the formal amendment option to enable me to redraw the location plan using the Planning Portal's location plan tool. I hope this is not inconvenient. There are no changes in what I am applying for; I have just made changes to address the application's validity.

1. Archaeological Statement now included
2. CIL form now included
3. Heritage Statement now included
4. Location plan updated and now shows access to highway (which I believe was the problem with the initial location plan I submitted).
5. Site plan updated and now shows the context of the site, as I believe the initial site plan was invalid as I had not shown the context of the site.
