Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

I am seeking planning permission to convert my existing garage and construct a modest timber-framed extension to the rear, in order to create a small-scale, private home salon to be operated by myself and one colleague. The proposal will allow us to relocate our existing local hair and nail businesses and continue providing services to the local community in a low-intensity manner.

The salon will operate strictly on an appointment-only basis. Opening hours will be between 9:00am and 5:00pm, Tuesday to Friday only, with no weekend operation. Some days will involve reduced hours due to part-time working patterns. In many cases, services will be provided jointly to a single client, for example where hair and nail treatments are carried out during the same appointment. This approach improves efficiency and significantly reduces overall client numbers.

Adequate parking is available to support the proposal, including on-street parking bays immediately outside the property. The existing driveway is capable of accommodating two to three vehicles, ensuring that the proposal will not result in parking congestion or obstruction.

The services offered do not involve equipment that generates excessive noise. Any use of domestic hair dryers will be intermittent, and no amplified music will be played. The salon will be appropriately insulated to reduce sound transmission, and noise levels will remain consistent with normal domestic activity.

The external appearance of the garage will remain predominantly unchanged in order to preserve the domestic and residential character of the property. The existing garage door will be retained, while the current side door will be replaced with a modern white uPVC door. Two windows will be installed to provide natural light. The conversion works will be timber-framed and finished with a cladding-style exterior.

There will be no external signage or advertising associated with the salon.

The garage is attached to the neighbouring property's garage. The adjoining neighbour has been consulted regarding the proposal and has confirmed that they have no objections.

Given the small scale of our businesses, appointment-only operation, limited hours and available parking, the proposal will not result in unacceptable noise or disturbance to the surrounding areas.

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

☐ Yes, on the development site

☐ Yes, on land adjacent to or near the proposed development

☒ No

b) Designated sites, important habitats or other biodiversity features

☐ Yes, on the development site

☐ Yes, on land adjacent to or near the proposed development

☒ No

c) Features of geological conservation importance

☐ Yes, on the development site

☐ Yes, on land adjacent to or near the proposed development

☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

☐ Yes

☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

Although the overall site area exceeds 25 square metres, the proposed development affects only a very small area of existing habitat. The conversion of the existing garage is located on established hardstanding and does not result in any habitat loss. Only the rear extension, measuring approximately 7.5 square metres, will be constructed on grass within the residential curtilage. The total area of habitat affected therefore falls well below the 25 square metre threshold for the de minimis exemption. No priority habitats, hedgerows, or trees will be removed or altered as part of the development.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
