In accordance with paragraph 38 of the National Planning Policy Framework, Wiltshire Council has worked proactively to secure this development to improve the economic, social and environmental conditions of the area.

Subject to the following conditions:

- 1** The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Informative

- 4** The red line plan submitted with the application contains land that, in the view of the Local Planning Authority, is not within the residential curtilage of the main dwelling and may not otherwise be in lawful residential use for planning purposes. Based on the information provided, however, the Local Planning Authority is satisfied that this is not land necessary for the carrying out of the development hereby permitted, and it has not therefore considered it necessary to ascertain the current lawful use of the land; however, and for the avoidance of doubt, the applicant is reminded that the red line plan serves only to identify the land in respect of which the application has been made and that a householder application and decision notice in no way lawfully changes the use of any land within said red line plan. This shall not preclude an application for change of use to be considered by the Local Planning Authority, and the applicant may apply for a Certificate of Lawfulness if they later deem it necessary to demonstrate an established lawful use of any of the land.

Informative

- 5** Any alterations to the approved plans, brought about by compliance with Building Regulations or any other reason must first be agreed in writing with the Local Planning Authority before commencement of work.

Informative

- 6** The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for development of land in England is deemed to have been granted subject to the condition (biodiversity gain condition) that development may not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- (b) the planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan, if one is required in respect of this permission would be Wiltshire Council.

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. For further information on exempt developments please refer to:

<https://www.gov.uk/guidance/biodiversity-net-gain-exempt-developments>

Based on the information available this permission is considered to be one which will not require the approval of a biodiversity gain plan before development is begun because one or more of the statutory exemptions or transitional arrangements is considered to apply.
