

As part of the development of the new Lidl store at Churchill Way West Retail Park in Salisbury, Lidl are required to develop, implement and monitor a store specific Travel Plan.

What is a Travel Plan?

A Travel Plan is a package of measures aimed at promoting and facilitating sustainable travel modes, with an emphasis on reducing reliance on single occupancy car travel where alternative realistic transport choices are available. Travel Plans are NOT 'anti-car' but rather emphasises site specific travel choices that are available and offer practical measures on how to make them more accessible for everyone.

What is the Travel Plan all about?

Your Travel Plan includes the following:

- Details in relation to the implementation, management and monitoring of the Travel Plan;
- Measures to encourage use of sustainable modes of travel;
- Details of local public transport services; and
- Nearby infrastructure and facilities to facilitate walking and cycling within the local area.

Travel Plan Aims / Objectives and Targets

The primary aim / objective of the Travel Plan is to:

Encourage the utilisation of sustainable modes of travel when accessing the site and in turn reducing unnecessary vehicular trips, mainly single occupancy private car travel, where suitable alternative modes of travel are available.

Consequently, Travel Plan targets aspire to achieve an ambitious target of a **10% reduction in single occupancy staff vehicle trips** by Year 5 of the Travel Plan compared with the baseline situation, with a proportional increase in sustainable travel modes use.

Want more information or have any questions?

Further Travel Plan information is provided via the noticeboard / Travel Plan folder within the staff welfare area.

If you wish to discuss issues relating to the Travel Plan or your journey to / from the store, please contact your nominated Travel Plan Coordinator via contact details below or speak with your store manager.

Travel Plan Coordinator: **Richard Broad**

Telephone: **01483 750508**

Email: LIDLChurchillWayTPC@mayerbrown.co.uk

Incentives & Benefits

Health Benefits

There is no doubt that walking and cycling is good for you in lots of ways, but few people realise just how good! Physical activity not only contributes to well-being but is also essential for good health - doing little or no exercise gives the same risk of a heart attack as smoking **20** cigarettes a day and walking for **just 30 minutes** a day can reduce the risk of heart disease or a stroke by half.

Walking and cycling are the most common forms of exercise and can make you feel good, give you more energy, reduce stress and help you sleep better, keep your heart 'strong' and reduce blood pressure and help to manage your weight.

Financial Benefits

Swapping just **1 in 4 of your car journeys** for active travel options (walking / cycling) can result in the average driver **saving £379 a year** in fuel costs.

Environmental Benefits

Travelling by a non-car method for **one day a week** would reduce the air pollution you produce during your commute by up to **20% a week**, with each mile you walk rather than drive saving 276g of carbon dioxide.

Journey Planning

Journey Planning websites assist you to plan your journey from door to door via a combination of walking, buses, trains and other travel modes to provide the quickest and most convenient non-car route in addition to providing a comparison with the equivalent car journey in distance, journey time, calories burnt and CO2 produced.

A number of journey planning platforms are outlined below to assist you in planning your journeys.

connectingwiltshire.co.uk/plan-a-journey/

www.google.co.uk/maps

www.travelinesw.com

Working Hours Flexibility

Varying working shift patterns are necessary for operational flexibility, but store management will endeavor to accommodate staff requests for minor amendments to their shifts to facilitate the use of sustainable modes of transport wherever possible.

Walking

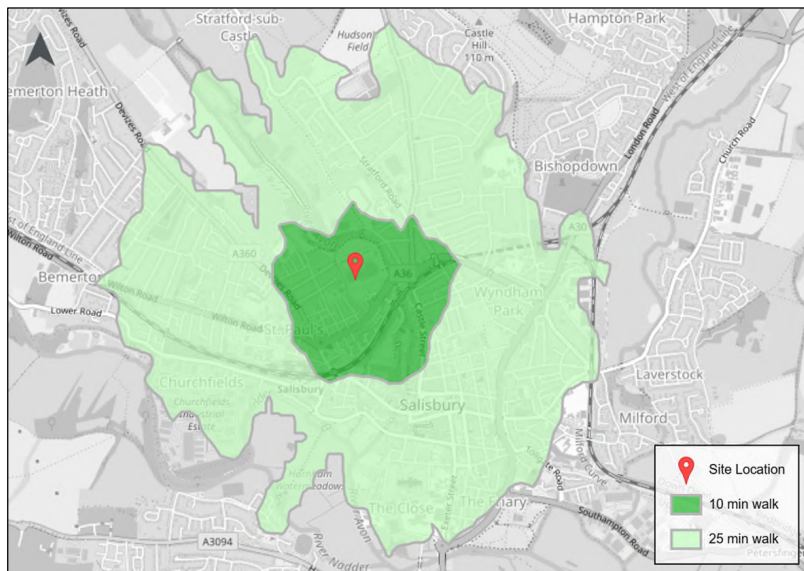

Walking is best suited to journeys of less than two miles, which would normally take up to 30 minutes to complete. Walking can also be combined with car sharing or public transport for those wishing to undertake longer journeys.

Physical exercise is good for both physical and mental health – it helps to reduce stress levels, tone muscles and burn calories.

- Walking just one mile can burn up to 100 calories;
- Walking two miles a day three times a week could help reduce weight by a pound every three weeks; and
- Walking for just 30 minutes a day can reduce risk of heart disease and a stroke by half.

Walking Routes & Distances

People often have an unrealistic idea on how long it takes to walk somewhere, so the plan below provides an indicative idea of areas within 10-minute (800m) and 25-minute (2km) to/ from the store by walking.

Cycling

Why Should I Cycle?

Cycling is beneficial in many ways because:

- It's Good for **You** - Regular cycling can help you lose weight, reduce stress and improve your fitness;
- It's Good for **Your Wallet** - Cycling is free, compared with car fuel costs and parking charges; and
- It's Good for **The World** - Bicycles produce absolutely no pollution and are a lot quieter too.

Cycle Routes

Cycle journey planners can show the fastest, quietest, or most balanced route in addition to journey times, distances and how many calories you'll burn as well as providing an elevation profile showing how flat (or hilly) routes are. Cycle Journey planning resources include:

www.connectingwiltshire.co.uk/getting-around/cycling/cycle-maps-routes/ www.cyclestreets.net/journey www.cyclinguk.org/journey-planner

Cycle to Work Scheme

Lidl has partnered up with www.cyclescheme.co.uk to offer employees access to the Government-backed Cycle to Work benefit, enabling you to save money on a new bicycle and spread the cost over tax-free monthly payments.

Further details in relation to how it works, eligibility and other FAQs can be found in the Lidl Rewards brochure / app / website or can be provided by the Travel Plan Coordinator on request.

Cycle Training

Cycle training courses aimed at adults who have never cycled before or who would prefer a bit more confidence before cycling to work are available, with courses typically tailored to an individual's needs / routes. Look out for promotional posters / leaflets within the staff welfare area with details of local course or where to find additional information.

Bike Register

Bike Register is the UK's leading online bicycle identification and registration initiative, aiming to reduce cycle theft, identify stolen bikes and assist in owner recovery. There is no charge to register your bike unless you wish to purchase additional security features. More information can be found at www.BikeRegister.com

Health / Healthy Living / Fitness Apps

A selection of free apps are available to help you achieve your aims / goals, with a selection highlighted below.

Better Points

Behaving in ways that are good for our health and for the planet should be a no-brainer. BetterPoints aims to make such behaviour fun, attractive – and normal.

The BetterPoints app is the home of programmes designed to motivate people to behave more healthily and sustainably, such as walking, cycling, and eating better.

StepsApp

StepsApp turns your iPhone into a simple and beautiful step counter. Just put your phone in your pocket and off you go. Set goals. Count steps. Burn calories.

NHS Couch to 5K

A running program for absolute beginners. Couch to 5K has now helped more than 4 million people start running. The app has a choice of 5 trainers to motivate you, works with your music player, tracks your runs and connects you with other Couch to 5K runners.

Couch to 5K can be completed in as little as 9 weeks, or longer if you want to go at your own pace.

NHS Active 10 Walking Tracker

The Active 10 app records every minute of walking you do (anonymously). Just pop your phone in your pocket and away you go! The app tracks your steps, helps you set goals, shows you your achievements and gives you tips to boost your activity.

Did you know walking briskly, even for 1 minute, counts as exercise? What are you waiting for - take your first steps today!

Strava

Track your fitness activity with Strava. Record your run, map a cycling route & analyse your training with all the stats – for free! Whether you're training for a marathon or simply love taking your bike out for a ride, turn your smartphone or GPS watch into a sophisticated tracker with Strava.

Public Transport

Whether travelling to work, going shopping or going into town for a night out, taking the bus or train can be less stressful and more relaxing than driving.

- You can read the newspaper on your way to work;
- You can relax and enjoy the scenery or snooze until you arrive at your destination;
- Dedicated bus lanes allow buses to avoid sitting in congested traffic jams; and
- No need to find a parking space and no parking charges to pay.

Local Bus Services & Timetables

A bus service map detailing local bus stops and routes in the vicinity of the store is provided in the Travel Plan folder within the staff welfare area, alongside associated service timetable / route information.

Further details in relation to services operating within the local area are available online via the following:

www.traveline.info www.connectingwiltshire.co.uk salisburyreds.co.uk stagecoachbus.com www.bustimes.org

Tap On / Tap Off Payments

Tap On / Off automatically works out your best daily and weekly fare depending on how many times you travel each day / week. There is no need to tell the driver where you are going and you don't need a paper ticket, making boarding buses easier and faster.

Simply 'Tap On' using the driver's ticket machine at the start of each journey and 'Tap Off' at the end of each journey on the tap off reader located by the exit door, using a contactless payment method.

There is no need to register or sign up, unless you want to see your trip history.

To get the best available daily fare you will need to use the same card that day / week.

Discounted Tickets

Many are aware of the current £3 bus single journey fare cap scheme on over 5,000 routes in England, but did you know that for regular bus users 7, 30 and 90 day and annual tickets offer great value for money, visit your local operators' website for current availability / prices.

Railcards

Various railcards are available which may provide reduced / discounted ticket prices for you and potentially family / friends, check if there is a suitable Railcard for you at www.Railcard.co.uk

Car Sharing

Car sharing is when two or more people travel together by car. It allows people to benefit from the convenience of the car, whilst alleviating the associated costs and wider problems of congestion and pollution.

Car sharing does not exclude people who would otherwise have travelled to work by alternative non-car travel modes (e.g. public transport or cycle) but is specifically aimed at reducing vehicles on the road through increasing vehicle occupancy.

What are the Benefits?

Car Sharing is beneficial to everyone as it:

- Saves you money - on average, regular car sharers save around £700 a year in fuel costs alone; and
- Helps reduce the number of cars on the road - resulting in less congestion and less pollution.

FAQ's

Insurance - In general, car sharing should not affect insurance. It is advisable to inform the insurance company that a driver is registered with the scheme, but this should not incur additional costs.

I don't want to share every day – car sharing can be flexible and does not commit you to car share all the time. Even if everyone shared once a week a big difference would be noticed.

What if I have out of work commitments – many people know when they will have commitments outside of work and therefore car sharing can be arranged around this accordingly.

More Information

Additional information regarding car sharing can be found at the following:

CarShareWiltshire | Connect to Share

liftshare.com/uk/community/wiltshire

How much can YOU save?

A savings calculator is available at
<https://liftshare.com/uk/savings-calculator>

or via the QR link below

Mopeds and Motorcycles

Mopeds and motorcycles offer the personal freedom and convenience of a car with significantly less congestion and pollution impact, whilst also providing a viable alternative option to private car use for many journeys where public transport is limited and walking or cycling unrealistic.

Pros and Cons

Journey Times - Mopeds and motorcycles can reduce journey times, typically being the most efficient motorised travel mode for urban journeys as you can (carefully) navigate through congestion.

Space - Mopeds and motorcycles require less road and parking space than other motor vehicles.

Distance and Loads – Moped and motorcycles are typically more suited to short distance journeys with minimal requirements for carrying items or passengers.

Cost - Mopeds and Motorcycles are often more affordable than other motorised travel options in terms of initial purchase, insurance and running costs.

Licence Requirements

To ride a motorcycle on public roads you first need to get a provisional licence or have a valid motorcycle/car licence. If you have a full driving licence, you may be entitled to ride a 50cc moped without any additional training depending on when you passed your test.

If needed, you will then be required to complete compulsory basic training (CBT). This is not a test but rather a training day to make sure you can ride safely on your own while you practice for your full moped or motorcycle test. CBT costs vary between instructors, but prices usually range from £130 to £200.

After you've completed the CBT you can ride the following, but you must use/display L plates:

- moped if you're 16 or over or
- motorcycle up to 125cc and with a power output of up to 11kW if you're 17 or over.

You must then pass the full motorcycle the theory test and both modules of the practical test within 2 years.

If you do not, you have to retake the CBT again or stop riding.

For further information check online at www.gov.uk/ride-motorcycle-moped

Electric Vehicles

Electric and plug-in cars come in all shapes and sizes with a large number of models now available. Electric vehicle technology is fast maturing and as range increases and prices come down, running one is becoming an attractive option for many drivers.

There are generally three types of Electric Vehicles (EVs) available:

- **BEV (Battery-electric EV)** – A vehicle powered solely by a battery charged from mains electricity. Currently typical pure-electric cars have a range in excess of 80 miles;
- **PHEV (Plug-in Hybrid EV)** – A vehicle with a plug-in battery and an internal combustion engine powered by petrol or diesel. Typical PHEVs will have a pure-electric range of up to 30 miles with journeys continuing in hybrid mode, giving a typical range in excess of 300 miles; and
- **E-REV (Extended Range EV)** – A vehicle powered by a battery with a petrol or diesel powered generator on board. With an E-REV the propulsion technology is always electric, with a range of between 150 - 300 miles.

Benefits

While the initial upfront purchase price of an electric or plug-in hybrid vehicle can be higher, this is offset by lower running costs over the lifetime of the vehicle.

- Journey cost savings - to compare the costs of driving an EV on a typical journey with those of driving a petrol or diesel car, visit www.zap-map.com/tools/journey-cost-calculator to use the Journey Cost Calculator;
- The lower or zero emissions of plug-in vehicles means that they will attract lower charges from Clean Air Zones being implemented around the UK and the Ultra-Low Emission Zone in London;
- There are fewer mechanical components in an electric vehicle when compared with conventional vehicles, which often results in lower servicing and maintenance costs; and
- Zero or discounted car tax and grants are available towards the cost and installation of charge points.

Electric Vehicle Charging

Charging provision for Electric vehicles is provided within the retail park with further details for the use of these spaces provided via signage onsite.

EV charging infrastructure is typically provided through subscription or pay-as-you-go services. There are numerous charge point location maps available to find charge points nearby or on your route, including:

POD Point
charge.pod-point.com

Zap-Map
www.zap-map.com

Wiltshire EV charge points
connectingwiltshire.co.uk/getting-around/car/electric-vehicles/

Taxis

Local authorities are responsible for licensing Hackney Carriage and Private Hire vehicles and their drivers in their area, ensuring that vehicles are safe, comfortable and properly insured and that drivers are 'fit and proper' to hold a licence.

Taxi Types

There are typically two types of taxi operating in most areas:

Hackney Carriage Vehicles ('London Style' black cab) - Can be flagged down (hailed) in the street, hired at an authorised rank or pre-booked. Licensed vehicles typically have a 'TAXI' roof sign and a distinctive taxi licence plate on the rear and are typically all wheelchair accessible.

Vehicles must be fitted with a taxi-meter to calculate the fare, with tariffs fixed / controlled by the council. Hackney carriages are the subject of strict licensing rules, regulations and bylaws to ensure that they remain fit for purpose.

Private Hire Vehicles - Can only be pre-booked via a licensed Private Hire Operator and are not allowed to be hailed in the street or hired from a taxi rank (the vehicle is not insured to carry you unless it is pre-booked). Licensed vehicles have a distinctive taxi licence plate on the rear.

The council does not control fares for private hire vehicles with the cost of a journey agreed between the operator and the customer.

Private Hire Operators

There are a range of private hire operators serving the local / regional area, including the following companies:

Taxi Company	Telephone No	Website
CityRun Taxi Service - Salisbury	01722510510	www.cityruntaxiservice.co.uk
AA Taxis	01722505011	www.aa-taxis.com
Triple 4 Triple 4 Taxis - Salisbury	01722444444	www.triple4triple4taxis.co.uk

Be Safe

Always make sure your vehicle is displaying the correct signs and plates. If possible, always book your vehicle with the operator in advance and never get into a car without ensuring that it is the one booked for you. Check the driver's badge and vehicle plates are in date and if you have any doubts do not get into the vehicle.

- A licensed vehicle will normally display a licence plate (these can be on the front or rear of the vehicle) which will include the licensing authority, the licence number and the vehicle registration
- A licensed driver will wear an identity badge (or will display one), which will show the driver's licence number and licensing authority details

Cycle Streets App

www.cyclestreets.net/mobile

Plan cycle-friendly routes from A to B anywhere in the UK - Choose from quietest, fastest or a balanced route type.

Routes takes advantage of descents down hills and avoids ascents where possible.

UK Bus Checker App

www.buschecker.com

Free app that provides instant arrival information for buses on your mobile or smartwatch in addition to route maps, disruptions info, travel tips and much, much more.

Bus Checker will even wake you up when you get to your bus stop - no more falling asleep on the last bus...

Next Buses

Nextbuses.mobi

NextBuses is a mobile internet service which makes it possible to find bus times on your mobile internet enabled phone.

You can select a bus stop close to where you are in Scotland, England or Wales and for that bus stop find the next bus times. Scheduled bus times are shown if LIVE information is unavailable.

Salisbury Reds

www.salisburyreds.co.uk/app

Salisbury Reds mobile app has all you need in one place - bus tracking on live map, journey planning, live bus information and mobile bus tickets.

Make sure you have the latest version of the app to take advantage of features including setting favorite locations / services / stops, check for quieter buses, tracking where your bus is live, send tickets to another person, buy tickets before you travel etc

What are the Benefits of Sustainable Travel

With recent increases in household costs and the ongoing climate change emergency you could save money and help by considering alternative modes of travel.

You do not need to change every journey, just one journey a week can make a difference!

Health Benefits

Physical exercise, including active travel modes such as walking and cycling is good for both physical and mental health – it helps to reduce stress levels, tone muscles and burn calories.

- Doing little / no exercise has the same risk of a heart attack as 20 cigarettes a day.
- Walking just one mile can burn up to 100 calories.
- Walking 2 miles a day 3 times a week could help reduce weight by a pound every 3 weeks.
- Walking for just 30 minutes a day can reduce the risk of heart disease or a stroke by half.

Environmental Savings

In 2019, transport accounted for 34% of the UK's total carbon emissions whilst 80% of nitrogen dioxide recorded in the UK is at roadside. Reducing your dependency on the car can make a big difference to the environment.

- Each mile you walk rather than drive saves 276g of carbon dioxide (CO₂)
- Choosing to walk or cycle just one mile to the shop and back once a week instead of taking the car will see fuel savings of £16 and 27kg in CO₂ annually, equivalent of charging your smart phone 3,443 times.
- Replacing car journeys with public transport can reduce your CO₂ emissions by 42% if using the bus and 73% if using the train. One bus can take up to 75 private cars off the road, reducing congestion and improving air quality.
- Travelling by a non-car method for one day a week would reduce the air pollution you produce during your commute by up to 20% a week

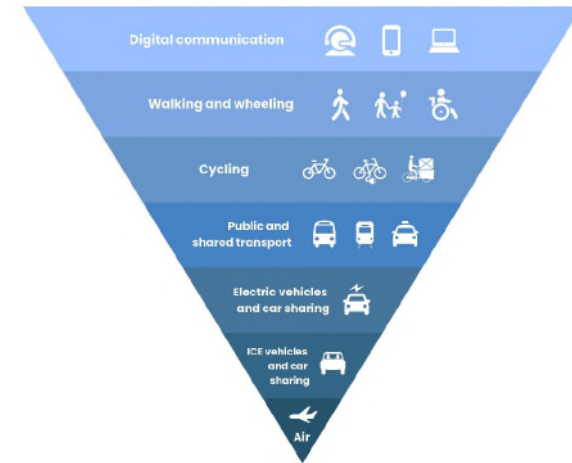

Financial Savings

Swapping just 1 in 4 of your car journeys for active travel options (walking / cycling) can result in the average driver saving £379 a year in fuel costs.

Sustainable Travel Hierarchy

The sustainable travel hierarchy is a useful tool to help you think about improving the impact of your journeys. The higher up the hierarchy, the more sustainable / greener the travel option.

In relation to travelling to work:

Walking and Wheeling - Travelling on foot or wheels doesn't create any carbon emissions, so this is a sustainable and green way to make a journey.

Cycling - This mode of travel requires some equipment (a bike, a lock and a helmet if you prefer) to get you started. Jumping on your bike is a great option if you want to cover short distances quickly and with ebikes, cycling longer distances doesn't have to be exhausting.

Public and Shared Transport - There may be times when active travel isn't a suitable option, for example when travelling a long distance or transporting items. Getting the bus or train instead of taking the car can help you reduce your carbon footprint while you travel. Shared and public transport also reduces traffic congestion and improves local air quality. It can also be a better use of your time, allowing you to check messages, read a book or chat with friends and family while you travel!

Electric Vehicles - Sometimes a private vehicle is necessary, and on these occasions, you should consider the greenest type of vehicle – this is where electric cars come in, producing far fewer carbon emissions than their petrol / diesel equivalents with zero tailpipe emissions.

Car sharing - Lift sharing is another great way to reduce traffic, emissions and costs – split the cost of journeys and enjoy a social commute, which can reduce stress and improve your overall mental health.

[cyclescheme.co.uk](http://www.cyclescheme.co.uk)

www.cyclescheme.co.uk

Cycle to Work Scheme

Lidl has partnered up with Cyclescheme to offer employees access to the Government-backed Cycle to Work benefit, enabling you to save money on a new bicycle and spread the cost over tax-free monthly payments.

What is it?

The Cycle to Work benefit gives you the opportunity to get a brand-new bike and approved equipment to use, mainly for travelling to / from work, while saving tax and National Insurance Contributions on the total cost.

You choose a bike, hire it for an agreed length of time, then wind its value down to a negligible amount.

What's Included?

You can get whatever you need to keep you in the saddle and cycle commuting regularly. Including any type of bike, e-bike or cycle with at least 2 wheels.

Cyclescheme offers three types of packages:

1. Just a Bike
2. Just Accessories
3. A Bike and Accessories

Shop with 2,000+ retailers nationwide (in-store, online, click and collect or brand direct) and if you cannot find what you're looking for they will help you find it.

How much can I save?

Typical savings are around **30%**.

To find out how much you can save log on to the cycle scheme website at www.cyclescheme.co.uk and use the savings calculator to work out your personalised saving estimate

More Information

Further details in relation to how it works, eligibility and other FAQs can be found in the [Lidl Rewards brochure / app / website](#) and www.cyclescheme.co.uk.

Electric Cycles

If cycling sounds like too much effort, what about investigating an Electric bike (E-bike).

The electric motor enables you to accelerate quicker and reach higher speeds, helping you reach your destination more quickly, whilst feeling less tired and sweaty.

Key Features

In the UK, E-bikes can have up to a 250W motor, which will no longer assist a rider when they reach speeds of 15.5 miles / 25km per hour.

An E-bike typically weighs between 20 – 35kg, which is more than a conventional bike due to the additional weight associated with the battery, motor and controls.

The motor on an E-bike provides power assistance only when the rider is pedaling.

There are two main types of power assistance:

- **Torque sensor pedal assist** – senses the force placed on the pedals. The harder you are pushing down, the more power assistance the motor provides.
- **Cadence sensor pedal assist** – provides power regardless of how fast or slow you are pedaling. The motor will always provide the same level of power, depending on the setting you choose.

E-bike batteries are typically good for 25 – 50 miles, usually enough to cover a return journey to work and you can still use the E-bike when the battery runs out, but it may be slightly harder with the extra weight.

E-bike batteries take between 2 – 6 hours to fully charge, with 2 hours charge typically enough to cover most journeys.

E-bike Costs and Where to get one!

The cost of an E-bike ranges from £500 to £5,000+, therefore it is highly recommended that you test ride a few bikes to find the ideal bike to suit your specific needs and budget, or at least check out reviews online as a minimum.

When purchasing, there are several options available:

- **Purchase a new E-bike** – from a conventional bike shop or online. **Cycle to Work** schemes could save you up to 40% on the cost of an E-bike and accessories.
- **Purchase a secondhand E-bike** – make sure you check its condition before you pay!
- **Retrofit an existing conventional bike** – conversion kits include a motor, battery and control systems, costing between £100 - £600. You can fit this yourself or pay a local bike mechanic to do it for you.

[cyclescheme.co.uk](http://www.cyclescheme.co.uk)

Adult Cycle Training Courses

Whether you want to improve your fitness, save money, cut traffic congestion or reduce your carbon footprint, cycling has something for everyone.

Many people would like to cycle to work or for pleasure but are put off by the traffic or because they feel out of practice. A refresher cycle training session can allow you to gain the confidence and skills you need to ride on the road.

If you're worried about getting started, it is useful to know:

- It's not that unusual. 80% of adults rarely cycle, if ever, and this increases for women and ethnic minorities.
- Learning to cycle doesn't take as long as you might think! Instructors can get the most nervous riders pedaling in under an hour.
- You won't have to learn with children. You will complete your adult course either one-to-one or in a small group of adults.

Free Adult Cycle Training Wiltshire Council have a limited number of free places available. The sessions are available at three levels, consisting of up to 2 hours of bespoke tuition with a qualified Bikeability instructor at a time and place to suit you. Further sessions may be available if you wish, but you would need to arrange this privately with the instructor.

To qualify for the training, you must live in the Wiltshire Council area and be aged 18+.

Build Your Confidence There are lots of quiet roads and off-road routes to help you start cycling as you develop skills and build the confidence to join the traffic on road. Cycle maps and routes information are available to find quieter roads in the local and wider area.

More Information

To find further information about cycle courses / instructors available near you visit:

www.connectingwiltshire.co.uk/getting-around/cycling/training/

www.bikeability.org.uk/find-cycle-training

Cycle Maintenance

A well-maintained bike is not only a pleasure to ride but safer and more reliable.

Bikes don't usually require too much maintenance but giving them a little regular love and care can help you avoid any major issues in the future. It's easy to learn what to do to keep your bike in top shape, and it'll soon become second nature.

'M' Check

Before setting out on any journey, it is important to check your bike, to make sure that it is safe and in good condition. The list below may look daunting, but it really should only take you a minute at most to work through. And with practice you will whizz through it in 30 seconds or so.

1. Rear Gears
2. Rear Wheel / Tyre
3. Rear Brake
4. Saddle
5. Bottom Bracket (Pedals)
6. Handlebars / Headset
7. Front Brakes
8. Front Wheel / Tyre

Bike Maintenance Guides

A wealth of information and 'how to' videos are available online, providing handy tips to ensure your bike is safe to ride and resolve some of the most common maintenance issues.

we are
cycling
UK

To help keep your bike in the best condition, Cycling UK has produced five simple guides on bike maintenance, designed to be downloaded to your phone for reference for wherever you travel.

Scan the QR code or visit www.cyclinguk.org/article/simple-bike-maintenance-guides.

Local Cycle Repairers

For times when you need assistance, local cycle repairers include the following:

Halfords – Salisbury www.halfords.com/locations/salisbury-store/
Dairy Meadow Ln, Salisbury SP1 2TJ

Stonehenge Cycles www.stonehengecycles.com/
86 Fisherton St, Salisbury SP2 7QY 01722 334 915

Car Sharing

70% of car journeys carry only one person. Car sharing can be a very good way of reducing peak time congestion, reducing fuel costs and cutting your carbon footprint - where two people share the problem is literally halved!

CarShareWiltshire | Connect to Share

Simply enter your start and end point at liftshare.com/uk/community/wiltshire and see if there are any similar commuters close by. It's a completely free service and personal details are not shared with other users unless you want to contact them. You do not even need a car - if you are just looking for a lift.

Benefits

- **Car sharing reduces the costs of traveling, saving you money**

a commuter will typically save over £1,000 a year, with around £700 in fuel costs alone. Savings are dependent upon the journey distance, frequency and how many people will be sharing.

- **Car sharing helps reduce the number of cars on the road** - resulting in less road / parking congestion and less pollution.

- **Car sharing is a great way of alleviating the stress caused by travel and making new friends**

FAQ's

- **Insurance** – In general, car sharing should not affect insurance although it is advisable to inform the insurance company that a driver is registered with the scheme.
- **Every Day?** – Car sharing can be flexible and does not commit you to car share every day, working around commitments outside of work.
- **Taxed/MOT** – It is recommended that you ask the driver for their Registration Number and Vehicle Make and check the details on <https://www.vehicleenquiry.service.gov.uk/>

To sign up / find out more information visit liftshare.com/uk/community/wiltshire

2026 Sustainable Travel Events

There are various national and international campaigns that aim to promote and support people to be more active and travel sustainably, with a selection outlined here.

January - April

Winter Wheelers UK (January) www.lovetoride.net/uk

A fun, free, and friendly challenge that's open to riders of all levels.

Just getting back on a bike or an avid commuter, everyone is invited!

Wrap up and Ride to save money, boost your health and win prizes

Earth Day (Wed 22nd April) earthday.org

Among other initiatives, Earth Day highlights the need to target Net-Zero carbon emissions through expanding / creating pedestrian and cycle-only zones and renewable public transport.

May - July

National Walking Month (May) www.livingstreets.org.uk

Walking is one of the easiest ways to improve our health, National Walking Month celebrates the health and happiness benefits of walking and wheeling more. **#WalkThisMay**

Bike Week (9th – 15th June) www.cyclinguk.org/bikeweek

Bike Week is an annual weeklong celebration promoting cycling as a fun, healthy, and environmentally-friendly way to travel. Join cyclists from around the world and take part in a variety of activities that celebrate the love of cycling.

Clean Air Day (18th June) www.cleanairday.org.uk

Highlighting the impact of air pollution on our health and the environment, encouraging individuals and communities to take steps to reduce air pollution. The day aims to educate, raise awareness, and mobilise collective action to improve air quality.

Did you know that commuting activities accounted for almost all (98%) of an individual's own carbon emissions related to work.

Produced by Mayer Brown Limited

2026 Sustainable Travel Events

July - September

Cycle to Work Day (6th August) www.cycletoworkday.org

UK's biggest cycle commuting event encouraging workers to get on their bikes and get into work the best way possible – on two wheels (or three for tricyclists!)

In addition, for participants logging their rides there are a number of prize giveaways.

World Car Free Day (22nd September)

Join with others across the UK and world by leaving the car at home for one day. Rethink our reliance on cars and consider the environmental, health, and social benefits of walking, cycling, public transport, and other eco-friendly options.

Experience a cleaner, quieter, and more pedestrian-friendly urban environment

National Liftshare Week (September) www.liftshare.com/liftshareweek

Encouraging people to join the Liftshare network to save money and cut their carbon footprint, including competitions to give something back to Liftshare members, and encourage more lift-sharing.

October - December

Road Safety Week (16th – 22nd November) www.brake.org.uk/road-safety-week

Sharing important road safety messages, remembering people affected and raise funds to help care for more road victims and campaign for safe roads for everyone.

Festival of Winter Walks (December / January) www.ramblers.org.uk

An annual event that encourages people to embrace the beauty of winter by going for walks in nature. It's a celebration of the great outdoors during the colder months and an opportunity to connect with nature, stay active, and enjoy the crisp, winter air.

Watch out for our regular sustainable travel updates on the staff noticeboard
highlighting upcoming events / initiatives.
