Description

Please describe details of the proposed development or works including any change of use

I would like to put a purpose built dog grooming pod measuring 8ft x 10ft in the back garden in order to start a dog grooming business from my residential premises. It will be a small scale business offering one to one grooms, I will therefore only have a maximum of two dogs at any one time. My opening hours will be at maximum 5 days a week 9-3.

With every other Saturday being 9-5pm at maximum.

There is parking for 2 cars on my drive, that can be used for customers.

The pod will be located at the back of my garden on the far left side to which there is currently a large shed measuring far bigger than what I am intending to replace with. This will be shielded from site from the road by house and a larger more secure gate than there is currently.

I will focus on sustainability, minimising single use products, reducing waste and using only organic shampoos which can be disposed of on my garden. Dog hair and waste will be removed as part of a commercial waste contract.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
- ☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:
