Omschrijving

De Easylift Premium is een zeer gebruiksvriendelijk dubbellaags fietsparkeersysteem. De fietsen worden boven elkaar gestald waardoor de fietsparkeercapaciteit verdubbelt. Bij het stallen in de bovenste etage helpen geïntegreerde gasveren bij het optillen van de fiets. Een uniek dempsysteem zorgt voor een gecontroleerde "hands-free" daling wanneer de fiets wordt uitgenomen.

Définition

Easylift Premium est un système de rangement de vélos à double étage qui offre une très grande facilité d'utilisation. Les vérins à gaz intégrés au système facilitent le levage du vélo pour le ranger à l'étage supérieur. Le système amortisseur assure le contrôle de la descente mains libres du vélo au moment de le retirer.

Beschreibung

Der Easylift Premium ist ein sehr benutzerfreundliches doppelstöckiges Fahrradparksystem. Die Fahrräder werden übereinander gestellt, so dass sich die Fahrradparkkapazität verdoppelt. Soll ein Rad in der oberen Reihe abgestellt werden, unterstützen integrierte Gasfedern das Hochheben. Ein einzigartiges Dämpfsystem sorgt dafür, dass sich die obere Reihe garantiert automatisch senkt, wenn das Fahrrad wieder herausgenommen wird.

Description

The Easylift Premium is an easy-to-use, two tier bicycle parking system. The bicycles are parked one above the other, which doubles the storage capacity. The system uses integrated gas springs which help you lift your bicycle to the upper storage level. A unique system of dampers ensures a safe and controlled hands-free descent when retrieving your bicycle.

EC DECLARATION OF CONFORMITY

the legal entity as identified below

IDENTIFICATION MANUFACTURER

Company name	Velopa B.V.
Address	Achthovenerweg 21
Zipcode	2351 AX
City	Leiderdorp
Country	The Netherlands

explained under their own responsibility that machine concerned as identified below

IDENTIFICATION MACHINE

Generic name	Easylift
Function	Two-tier bicycleparking system
Commercial designation	Easylift Premium

complies with all applicable provisions of:

Machinery directive 2006/42/EC

*Where the conformity assessment procedure for the following harmonised standards
or technical specifications (partly) been complied with:*

EN-ISO 12100:2010; EN 349:1993+A1:2008; EN 614-1:2006+A1:2009

Attentie:

- Controleer de hoek van de consoles na montage.
- Pas de positie van de console aan wanneer nodig, draai de bouten los voordat u gaat stellen.
- De consoles kunnen zowel naar boven als naar beneden toe worden bijgesteld.

Attention:

- Vérifier l'angle des consoles après assemblage.
- Ajustez la position de la console si nécessaire, desserrer les boulons avant de régler.
- Les consoles peuvent être ajustés à la fois de haut en bas.

Achtung:

- Überprüfen Sie den Winkel der Konsolen nach dem Zusammenbau.
- Stellen Sie die Position der Konsole, wenn nötig, drehen Sie die Schrauben los bevor sie stellen.
- Die Konsolen können sowohl nach oben als auch nach unten eingestellt werden.

Attention:

- Check the angle of the consoles after mounting.
- Adjust the position of the console when necessary, loosen the bolts before adjusting.
- The consoles can be adjusted both upwards and downwards.
