Overview

The following outline specification suggests the hard and soft materials palette for the external works associated with the proposed 8FE expansion of Sarum Academy in Salisbury. This document should be read in conjunction with all landscape drawings.

The imagery provides an illustrative guide to the proposed landscape hard surfaces, street furniture, boundary treatments and planting.

The following information associated with any of the items within this schedule shall be provided by others:

- Foundations
- Retaining structures
- Surface build-ups
- Road markings
- Drainage/irrigation
- Lighting

This document will help inform the post-planning detailed stages of the project.

Description: Used within the courtyard to explain SuDS features and other key elements. Single leg steel lectern
Colour/Finish: Various

Soft Materials

***Acer campestre* 'Streetwise'**
Common Name: Field Maple 'Streetwise'
Soil Volume: 18m³
Specification: 10-12

Betula pendula
Common Name: Silver Birch
Soil Volume: 17m³
Specification: 10-12

***Carpinus betulus* 'Frans Fontaine'**
Common Name: Hornbeam 'Frans Fontaine'
Soil Volume: TBC
Specification: 14-16

Corylus avellana
Common Name: Hazel
Soil Volume: TBC
Specification: multi-stem

Crataegus monogyna
Common Name: Hawthorn
Soil Volume: 9m³
Specification: 10-12

Quercus robur
Common Name: Oak
Soil Volume: 35m³
Specification: 10-12

***Liquidambar styraciflua* 'Worplesdon'**
Common Name: Sweet Gum
Soil Volume: 14m³
Specification: 12-14

Tree Guard - To all trees
Description: To aid the establishment of street trees and prevent vandalism
Colour/Finish: PVC Coated Weld Mesh, 12 gauge

Soil volume recommendations as per Tree Soil Volume Guide V2 (Green Blue Urban).

Soft Materials

Soft Boundaries

Amenity Planting
Low maintenance shrubs and groundcover, for edging and defensible planting

Native Hedgerow
Description: Mixed-species native hedgerow to be used as a soft boundary and ecological enhancement

Formal hedgerow
Description: *Carpinus betulus* hedgerow, to be maintained neatly clipped, sometimes used alongside timber post and rail fencing, to semi-private spaces and allotments

Orchard
Heritage fruit trees.

Soft Materials

Seed Mixes & Amenity Grass

Amenity Lawn
Description: Grass seed that responds well to regular short cuts, used in areas of higher traffic
Supplier: Emorsgate (or acceptable equivalent)
Product: EG22 Strong Lawn Mix

Species-rich Grass
Description: For overseeding retained grass areas, to diversify species and add wildflower and seasonal interest
Supplier: Heritage Seeds
Product: Salisbury Plain meadow mix, sited to calcareous soils.
(or acceptable equivalent)

Swale & Seasonally-wet Mix
Description: Complete grasses/wildflower mix for seasonally wet areas such as swales and drainage features
Supplier: Emorsgate (or acceptable equivalent)
Product: EM8 Wetland Meadow

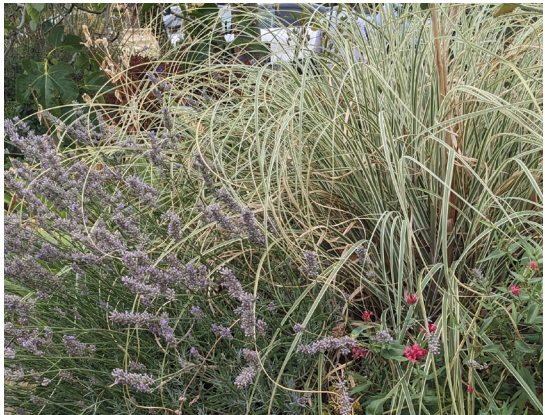

Planting Types

Sun Tolerant Planting
Low maintenance sun loving mix which thrives in dry full sun conditions.

Structured and Shade Tolerant Planting
Low maintenance shade tolerant seasonal ground cover, for defensible edge planting.

Texture and Sensory Planting
A mixture of planting types which offers a variety of colour, foliage type and scent.
