Site Address

4 Cherry Brier Close, Lydiard Millicent, Swindon, SN5 3NT

Proposal

Single Storey Rear Extension

This application follows and supersedes the above application which was approved in 2023 for a single storey rear extension with a flat roof and a roof lantern.

This current application proposes the location of the rear extension to be the same as that approved; but it is now proposed that a pitched roof will be erected together with a canopy roof over an outside dining area.

The principle is clearly the same although the extension is now larger than first proposed.
