Covering letter – Change of use application for 1 The Square, Ramsbury.

The application is for the change of use from office to residential. Until September 2025, 1 The Square was the office space for Susie Watson Designs. The work carried out here and staff previously employed have moved to the Susie Watson shop and premises in the High Street, Marlborough.

The applicant assumed that change of use could be completed under Class MA and only realised that this wasn't permissible at a later date due to the address location being within the North Wessex Downs Natural Landscape. For that reason, advice was sought from Jamie Raynor at Wiltshire Council who suggested that a Full Planning Application should be submitted.

There are no changes to the exterior of the building other than the removal of the previous 'Susie Watson Design' signage. The only alterations shown within the included drawings are minor adjustments to the room layout internally. These changes were completed during December 2025.

I hope that this information submitted with the application is sufficient and please do not hesitate to contact the applicant directly should a visit be required.

Many thanks,

Tom Franklin

Silhouette House.
