

Application Number:	PL/2026/00389
Location:	22 Cholderton, Salisbury, SP4 0DL
Proposal:	Replacement of fence and removal of conifer

I refer to the above planning application received on 5th February 2026 regarding a replacement fence and removal of a conifer.

Proposal

The proposal seeks the replacement of a fence which provides the boundary between No.22 and the adjoining property to the north.

The fencing proposed is indicated to be of a height of 1.8m at the eastern end of the boundary and reducing down to 1.04m at the western end, adjacent to the footway, which is stated to be the existing height.

Summary and Recommendations

On the basis that the proposed fencing does not exceed the existing height adjacent to the footway, and therefore does not compromise the existing visibility for emerging drivers, there would be no highway objection.
