

The Planning (Listed Building and Conservation Areas) Act 1990

Listed building consent - Approve with Conditions

Application Reference Number: PL/2025/09610

Decision Date: 10/02/2026

Applicant:	Ms L Twine 84 Crane Street, Salisbury, SP1 2QD
Particulars of Development:	Retrospective Change of Use and Conversion of building from Class E (office) to Class C3, 4 bed Dwelling (resubmission of PL/2024/10997)
At:	84 Crane Street, Salisbury, SP1 2QD

In pursuance of its powers under the above Act, the Council hereby GRANT LISTED BUILDING CONSENT for the above development to be carried out in accordance with the application and plans submitted (listed below), subject to compliance with the condition(s) specified hereunder:-

- 1** The works for which Listed Building Consent is hereby granted shall be begun before the expiration of three years from the date of this consent.

REASON: To comply with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Planning and Compulsory Purchase Act 2004.

- 2** The development hereby permitted shall be carried out in accordance with the following approved plans:

Application Form & Certificate

Ref: 04525 1 – Location Plan. Received – 2.12.2025

Ref: 04525 2 – Proposed Conversion to Dwelling. Received – 2.12.2025

Ref: 04525 3 – Elevations and Joinery Details. Received – 2.12.2025

REASON: For the avoidance of doubt and in the interests of proper planning.

- 3** No development shall continue above slab level on site until the exact details and samples of the materials to be used for the external walls and roofs have been submitted to and approved in writing by the Local Planning Authority. Development shall be carried out in accordance with the approved details.

REASON: The application contained insufficient information to enable this matter to be considered prior to granting planning permission and the matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, in the interests of visual amenity and the character and appearance of the area.

- 4** No development hereby approved shall commence on site until full details of the proposed drainage and plumbing runs have been submitted to and approved in writing by the Local Planning Authority so that the implications for the historic timbers can be fully understood and avoided. The methodology for the works; and any repair work required should be fully set out in the details, where necessary. The development shall be implemented in accordance with the approved details.

REASON: The application contained insufficient information to enable this matter to be considered prior to granting planning permission and the matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, to ensure that the proposals do not result in harm to the historic fabric which is designated as a Grade II* listed structure.

- 5** No development hereby approved shall commence on site until full details of the proposed glazing work on the rear elevation and extension have been submitted to and approved in writing by the Local Planning Authority. The details shall include scaled plans and sections of all windows (including head, cill and window reveal details). The development shall be implemented in accordance with the approved details.

REASON: The application contained insufficient information to enable this matter to be considered prior to granting planning permission and the matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, in the interests of visual amenity and the character and appearance of the area; and the historic significance of the Grade II* listed building.

- 6** The development will be carried out in strict accordance with the following documents:

- Natural England Nutrient Neutrality budget calculator for the River Avon SAC. 84 Crane Street Nutrient Assessment Revised;
- Nutrient Assessment & Budget. 17 January 2025. Aqua Callidus Consulting. Ref. 25011;
- Biodiversity Net gain Proposal. 6-1;
- Statement. 045.25.

REASON: For the avoidance of doubt and for the protection, mitigation and enhancement of biodiversity.

- 7 The dwelling/s hereby approved shall be designed to ensure they do not exceed 110 litres per person per day water consumption levels (which includes external water usage) and shall not be first occupied until a water efficiency assessment has been undertaken to confirm compliance with the Building Regulations Optional requirement of a maximum water use

REASON: To ensure compliance with the prevailing mitigation strategy for nutrient neutrality in the water catchment within which this development is located.

- 8 No development shall commence on site, including vegetation removal and demolition, until an Ecological Enhancement Plan has been submitted to and improved in writing by the Local Planning Authority. This shall include details and positions of at least one bat box and one bird box within the site boundary. The approved details shall be implemented in accordance with the manufacturer details before occupation of the dwelling hereby approved and shall be retained and maintained for the lifetime of the development.

REASON: The application contained insufficient information to enable this matter to be considered prior to granting planning permission and the matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, to provide enhancement for biodiversity in line with CP50 and NPPF.

- 9 Any external lighting installed on site shall be in accordance with the appropriate Environmental Zone standards set out by the Institute of Lighting Engineers in their publication GN01:2021, 'Guidance for the Reduction of Obtrusive Light' (ILP, 2021), and Guidance note GN08/23 "Bats and artificial lighting at night", issued by the Bat Conservation Trust and Institution of Lighting Professionals and will ensure that bat habitat (trees, scrub and hedgerows) on the perimeter of the site will remain below 0.5 lux.

REASON: In the interests of the amenities of the area and to minimize impacts on biodiversity caused by light spillage to areas above and outside the development site.

Informative

- 1 The applicant is advised that the development hereby approved may represent chargeable development under the Community Infrastructure Levy Regulations 2010 (as amended) and Wiltshire Council's CIL Charging Schedule. If the development is determined to be liable for CIL, a Liability Notice will be issued notifying you of the amount of CIL payment due. If an Additional Information Form has not already been submitted, please submit it now so that we can determine the CIL liability. In addition, you may be able to claim exemption or relief, in which case, please submit the relevant form so that we can determine your eligibility. The CIL Commencement Notice and Assumption of Liability must be submitted to Wiltshire Council prior to commencement of development. Should development commence prior to the CIL Liability Notice being issued by the local planning authority, any CIL exemption or relief will not apply and full payment will be required in full and with immediate effect. Should you require further information or to download the CIL forms please refer to the Council's Website:

Informative

- 2** Any alterations to the approved plans, brought about by compliance with Building Regulations or any other reason must first be agreed in writing with the Local Planning Authority before commencement of work.

Informative

- 3** The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for development of land in England is deemed to have been granted subject to the condition (biodiversity gain condition) that development may not begin unless:

- a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- b) the planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan, if one is required in respect of this permission would be Wiltshire Council. There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply.

Based on the information available this permission is considered to be one which will not require the approval of a biodiversity gain plan before development is begun because the permission which has been granted is for development, which is exempt being below the de minimis threshold, meaning development which:

- i. does not impact an onsite priority habitat (a habitat specified in a list published under section 41 of the Natural Environment and Rural Communities Act 2006); and
- ii. impacts less than 25 square metres of onsite habitat that has biodiversity value greater than zero and less than 5 metres in length of onsite linear habitat (as defined in the statutory metric).

Informative

- 4** The habitat within the proposed development site and the surrounding area is suitable for roosting, foraging and commuting bats. An increase in artificial lux levels can deter bats which could result in roost abandonment and/or the severance of key foraging areas. This will likely result in a significant negative impact upon the health of bat populations across the region. Artificial light at night can have a substantial adverse effect on biodiversity. Any new lighting should be for the purposes for safe access and security and be in accordance with the appropriate Environmental Zone standards set out by the Institute of Lighting Engineers in their publication GN01:2021, 'Guidance for the Reduction of Obtrusive Light' (ILP, 2021), and Guidance note GN08/23 "Bats and artificial lighting at night", issued by the Bat Conservation Trust and Institution of Lighting Professionals

***Níc Thomas* - Director of Planning, Economy and Regeneration**

NOTES

- 1 **Other Necessary Consents.** This document only conveys permission for the proposed development under Part III of the Town and Country Planning Act 1990 and the applicant must also comply with all the byelaws, regulations and statutory provisions in force in the area and secure such other approvals and permissions as may be necessary under other parts of the Town and Country Planning Act 1990 or other legislation.
 - 1.1 the need in appropriate cases to obtain approval under Building Regulations. **(The Building Regulations may be applicable to this proposal. Please contact the Council's Building Control team before considering work on site);**
 - 1.2 the need to obtain an appropriate order if the proposal involves the stopping up or diversion of a public right of way or other highway (including highway verge);
 - 1.3 the need to obtain a separate "Listed Building Consent" to the demolition, alteration or extension of any listed building of architectural or historic interest;
 - 1.4 the need to make any appropriate arrangements under the Highways Act 1980, in respect of any works within the limits of a highway. The address of the Highway Authority is County Hall, Trowbridge, BA14 8JD (It is the responsibility of the applicant to ascertain whether the proposed development affects any listed building or public right of way / other highway, including highway verge).
- 2 **Appeals.** If the applicant is aggrieved by the decision of the local planning authority to grant permission subject to conditions, he may appeal to the Secretary of State for the Environment in accordance with Section 78(1) of the Town and Country Planning Act 1990 within six months of the date of this decision. (Information and forms relating to the appeals process can be found at the Planning Portal - <https://www.gov.uk/appeal-planning-decision>).
- 3 **Climate Change.** Wiltshire Council acknowledges the climate emergency and is seeking to make the county carbon neutral. Adapting historic buildings for the future and making them energy efficient is a challenge and unique solutions may need to be found. [Historic England](#) provide guidance on this, including practical guidance on draught-proofing, insulating and ways of generating energy. The [Energy Saving Trust](#) provides more general information and resources on energy in homes. Also, [Warm & Safe Wiltshire](#) offers all residents across the county free and impartial telephone advice on energy saving. The developer is encouraged to contact the climate team to discuss this further: climate@wiltshire.gov.uk
