Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

I propose to only make the building water tight and safe from further delapidation. The building since being returned to Calne Town Council from Wiltshire Council is in a state of urgent repair with water flowing freely into the main structure due to roof tiles slipping freely due to failing tile battons. I endeavour to make the building structually sound and water tight whilst not affecting its Heritage and appearance.

Has the development or work already been started without consent?

Also include the proposal for their replacement, including any new means of structural support, and state references for the plan(s)/drawing(s).

Currently the 1st floor of the building is not safe to access due to the building's current state, so it's impossible to get photos of the roof structure. It is the roof structure that I believe requires some rotten sections removing and replacing with metal sections. Whilst it was hoped not to use another material, it means more of the original material will be able to remain untouched.
