

- ① Line of existing field shelter and other features.
- ② Brick/ flint faced retaining wall.
- ③ Rolled gravel/ hoggin path around building.
- ④ Rolled gravel/ hoggin yard to front of building. Surface to be permeable allowing surface water drainage.
- ⑤ Track to connect to existing access track, comprising rolled gravel/ hoggin tracks, with central grassed area.
- ⑥ Post and rail field boundaries removed.
- ⑦ Post and rail fence replaced with painted metal estate railing.
- ⑧ Yard gate.
- ⑨ Incorporate rainwater holding tank below yard, capturing run off from roof for garden irrigation.
- ⑩ Vehicle wash down area. Concrete concaved surface with central drainage point which extends to a soakaway. Provide silt trap at exit point from drain.

Site Plan : scale 1:100.
