Dear Sir/Madam,

Re: Application No: PL/2026/00438

I am against full planning permission; barns and storage areas on farmland should not be altered to become a gym or storage area for cars. A farm should be sold to those who will use or retain the entire property for animals and food production. Is this application to enhance the already changed use?

I can no longer walk down the path to my house from the main road without being interrupted by vehicles; it is especially dangerous in the dark when vehicles are still moving to and from the gym. There is noise from vehicles for at least 12 hours a day, and there can be music coming from the gym, even at night.

So what is meant by "Full Planning Permission"?
The current owner is not a farmer; trading only in vehicle repair and gym provision. The large amount of new housing in this part of the country surely requires that increasing food production is vital.

Yours sincerely,
