

Condition 13: Proposed Retaining Wall Material

Cromwell Pitched Face Reconstituted Stone in Buff

140mm x 365mm

Product Details

For the appearance of natural stone walling, Cromwell Stone Walling from Marshalls is a premium product at an affordable price. A reconstructed walling stone, it uses Yorkstone aggregates quarried from the same natural sources as those used for natural stone walling to closely replicate the visual and textured characteristics of natural stone.

Suitable for load-bearing and non-load-bearing use, the hydraulic press manufacturing process results in low water absorption, ensuring the high-quality appearance is maintained over a long-term period.

The pressing process also delivers dimensional accuracy for time savings on site, while still achieving the visual impact of random and variably sized natural stone walling.

) Appearance of natural stone walling

) Conforms to BS EN 771-5 : 2011 + A1 : 2015
