In pursuance of its powers under the above Act, the Council has decided to make a Tree Preservation Order on this occasion. The Council hereby raises an OBJECTION to the above specified works.

Refusal Reason

- 1 Objection to the Notification of intent to carry out works to trees in a Conservation Area as insufficient information has been provided to justify the removal of trees that offer significant value to the character of the local area as a group, therefore TPO/2026/00003 has been made to ensure their retention at this time.
