

Figure 4

**Fence and Court Detail – Example of court surfacing and fencing
to be used at Fosgate House**

1. Court Surfacing

**Green coloured porous
synthetic grass surface.**

The synthetic grass court surface blends well with adjacent lawn and paddock areas and the fencing is hidden against the backdrop of soft landscaping.

2. Fencing

2.75 metre high fencing at both ends and along the west side but dropping down to the lower height of 0.9 metres along the east side.

**“Invisible” posts and open
mesh chain link fencing.**
