Dear Sirs

Re : Beaufort Building, Bristol Road, Chippenham, SN14 6NA

I attach a Planning Application relating to a proposed new Storage Building at the above site consisting of the following documents :

Completed Application Form with Certificate B
Drawing number B 3296 01
Drawing number B 3296 02
Location Plan showing site edged red

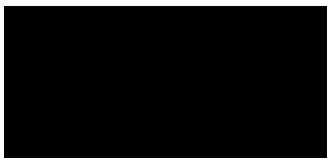

A Planning Notice has been sent to westernhighways@gov.uk as owners of the crossing of the roadside verge which is included in the application site.

I will contact yur office during the next few days to pay the relevant fee

My client, Bridge Contract Solutions who have owned/occupied the site for 9 years are proposing the new building to replace inadequate external storage buildings which are in poor condition. They also rent space at another warehouse unit in Chippenham and the proposal provides opportunity to consolidate and expand the successful business.

I would be grateful if you would give this Application your favourable consideration. Should any further information be required please advise.

Kind Regards

Peter J Preston
