Re: Listed Building Consent Application – The Ship Public House, Upavon

Dear Sir/Madam,

Please find enclosed an application for Listed Building Consent relating to The Ship Public House, High Street, Upavon. The proposed works consist of:

1. External redecoration of the front and side elevation of the building, including repainting of rendered masonry and timber joinery in heritage-appropriate, muted colours.

The Ship is a Grade II listed building of architectural and historic significance, and we have been mindful throughout the design process to ensure that the proposals are sympathetic, modest, and fully respectful of the heritage fabric.

– The external painting is intended as protective maintenance, using breathable heritage paints and traditional colour palettes in keeping with the character of the building and the wider conservation area.

The Ship Public House serves an established role within the local community, providing a social meeting place for residents and visitors to Upavon. The proposed external redecoration will help maintain the appearance of the building, contribute positively to the character of the High Street, and support the continued use of the property as a public house within the village

A Heritage Statement and Design & Access Statement are set out below in support of this application. These documents detail the significance of the building, the design rationale, and the impact assessment of the proposed works.

We trust that the enclosed information provides the necessary clarity, but please do not hesitate to contact me if further detail or site inspection is required.

Yours faithfully,

Christopher Foot
