

SAFETY, HEALTH AND ENVIRONMENTAL INFORMATION

This assessment is for non-standard or unusual Hazards and it is expected that Hazards associated with standard installations and designs are well understood by a competent Contractor.

CONSTRUCTION - HAZARDS / ACTIVITY

Assessed as Low (L) / Medium (M) / High (H) / Not Applicable (N)

- Falls From Height - Hazardous Material - Excavation/Service Strike - HAVS - Confined Workplace - Access/Egress - Weight Limit - Residual Electricity	- Drowning/Fall onto Rebar - Contaminated Land - Poor Ground conditions - Site Fabrication/drilling - Manual Handling - Stored Energy - Congested site - Existing equipment in close proximity
--	--

Interfaces: ☐ Public ☐ Operatives ☐ Vehicle/Plant

WHO COULD BE HARMED?	CONTROL MEASURES
- Construction operatives - Dismantling crew - Future maintenance crew - Public	- Existing work instruction - Method detailed on drawing - Method detailed on separate document

TEMPORARY WORKS

- No temporary works required
- Temporary works required and documented separately
- Drawing contains temporary works:

CDM REGULATIONS RESIDUAL RISKS

Design based hazards are actively eliminated where possible. Where hazards cannot be eliminated, this symbol along with an attached note will identify the hazard and indicate that an action is required by the person supervising the works to manage the design hazard during construction.

Other than those noted, we are not aware of any further residual design risks apart from those that a competent contractor would ordinarily consider.
