

## **DESIGN ACCESS & HERITAGE STATEMENT**

October 2025

### **Proposed Temporary Pop-up Shop – External Wrapping Precedent**

Wyvern Hall  
High Street  
Wylve  
Wiltshire  
BA12 0QR

## Notes

This document contains precedent images of the printed “wrapping” which will be applied externally to the proposed building to cover the finish of the portacabin & thus provide a more attractive visual finish to the building.

**These large scale building wraps are often seen on scaffolding & hoardings while a building is being renovated but can also become the final finish exterior. Crafted from durable, weather-resistant, heavy-duty mesh material which is also lightweight, weatherproof, and wear and tear-resistant as well as meeting fire safety & spread of flame regulations.**

The images below are from a variety of projects which have been executed in the UK using such exterior wrapping systems.
