Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).

Month

June

Year

1930

(Date must be pre-application submission)

Please provide a brief description of the building or part of the building you are proposing to demolish

At the rear of the property there is a timber framed and timber clad section that was formerly a garage built in the 1930s and has since been remodelled and converted into a restaurant seating area in the 1980s.

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

The former garage is not very substantially built and has very poor thermal efficiency. Redeveloping this outbuilding would enable the construction of a new, high-quality replacement structure to accommodate restaurant seating and guest accommodations above.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
- ☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

The existing site is completely developed and does not include any priority habitat or greenspace. The proposed development does not impact a priority habitat and impacts less than 25m2 of on-site habitat & 5m of on site linear habitats.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

- ☒ Yes
- ☐ No

If Yes, please provide details:

Have arrangements been made for the separate storage and collection of recyclable waste?

- ☒ Yes
- ☐ No

If Yes, please provide details:

Waste streams are to be segregated to allow collection of recyclable waste.
