

The Town and Country Planning Act 1990
Approval of Full Planning Permission with Conditions
Application Reference Number: PL/2025/02383
Decision Date: 18/09/2025

Applicant:	Linda Dolman Elm Villa, Corston, Malmesbury, SN16 0HB
Particulars of Development:	Erection of dwelling and associated works (revised proposal)
At:	Land at Mill Lane, Corston, Malmesbury, SN16 0HH

In pursuance of its powers under the above Act, the Council hereby **GRANT PLANNING PERMISSION** for the above development to be carried out in accordance with the application and plans submitted (listed below).

In accordance with paragraph 39 of the National Planning Policy Framework, Wiltshire Council has worked proactively to secure this development to improve the economic, social and environmental conditions of the area.

Subject to the following conditions:

- 1 The development hereby permitted shall be carried out in accordance with the following approved plans and documents:

Drawing No. 5465/50 Rev B: Site Plan, dated 17/03/25 and received 08 August 2025;

Drawing No. 5465/51 Rev D: Proposed Floor Plans, dated 06/08/25 and received 08 August 2025;

Drawing No. 5465/52 Rev D: Proposed Elevations, dated 06/08/25 and received 08 August 2025;

Preliminary Ecological Appraisal, received 06 March 2025; and

Application Form, dated 06/03/2025 and received 06 March 2025.

REASON: For the avoidance of doubt and in the interests of proper planning.

- 2** The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

REASON: To comply with the provisions of Section 91 of the Town and Country Planning Act 1990 as amended by the Planning and Compulsory Purchase Act 2004.

- 3** Prior to the commencement of any works, including vegetation removal and demolition, details of the number, design and locations of bat roosts and nesting opportunities for birds (e.g. bat and bird boxes) shall be submitted to the local authority for approval. The approved details shall be implemented before occupation of the final works.

REASON: To provide mitigation /enhancement for biodiversity.

- 4** 4. No external light fixture or fitting will be installed within the application site unless details of lighting have been submitted to and approved by the Local Planning Authority in writing. The submitted details will demonstrate how the proposed lighting will impact on bat habitat compared to the existing situation.

The plans will be in accordance with the appropriate Environmental Zone standards set out by the Institution of Lighting Professionals (ILP) Guidance Notes on the Avoidance of Obtrusive Light (GN 01/2021) and Guidance note GN08/23 "Bats and artificial lighting at night", issued by the Bat Conservation Trust and Institution of Lighting Professionals.

Any external lighting shall then only be installed in accordance with the approved details.

REASON: To avoid illumination of habitat used by bats.

- 5** No development shall commence on site until an investigation of the history and current condition of the site to determine the likelihood of the existence of contamination arising from previous uses (including asbestos) has been carried out and all of the following steps have been complied with to the satisfaction of the Local Planning Authority:

Step (i) A written report has been submitted to and approved by the Local Planning Authority which shall include details of the previous uses of the site and any adjacent

sites for at least the last 100 years and a description of the current condition of the sites with regard to any activities that may have caused contamination. The report shall confirm whether or not it is likely that contamination may be present on the site and the potential impact of any adjacent sites.

Step (ii) If the above report indicates that contamination may be present on, under or potentially affecting the proposed development site from adjacent land, or if evidence of contamination is found, a more detailed site investigation and risk assessment should be carried out in accordance with DEFRA and Environment Agency's "Model Procedures for the Management of Land Contamination CLR11" and other authoritative guidance and a report detailing the site investigation and risk assessment shall be submitted to and approved in writing by the Local Planning Authority.

Step (iii) If the report submitted pursuant to step (i) or (ii) indicates that remedial works are required, full details must be submitted to the Local Planning Authority and approved in writing and thereafter implemented prior to the commencement of the development or in accordance with a timetable that has been agreed in writing by the Local Planning Authority as part of the approved remediation scheme. On completion of any required remedial works the applicant shall provide written confirmation to the Local Planning Authority that the works have been completed in accordance with the agreed remediation strategy.

REASON: Core policy 56, To reduce the risks associated with land contamination

- 6** No development shall commence on site (including any works of demolition), until a Construction Method Statement, which shall include the following:
- a) the parking of vehicles of site operatives and visitors;
 - b) loading and unloading of plant and materials;
 - c) storage of plant and materials used in constructing the development;
 - d) the erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate;
 - e) wheel washing facilities;
 - f) measures to control the emission of dust and dirt during construction;
 - g) a scheme for recycling/disposing of waste resulting from demolition and

construction works; and

h) measures for the protection of the natural environment.

i) hours of construction, including deliveries;

has been submitted to, and approved in writing by, the Local Planning Authority.

The approved Statement shall be complied with in full throughout the construction period. The development shall not be carried out otherwise than in accordance with the approved construction method statement.

REASON: The application contained insufficient information to enable this matter to be considered prior to granting planning permission and the matter is required to be agreed with the Local Planning Authority before development commences in order that the development is undertaken in an acceptable manner, to minimise detrimental effects to the neighbouring amenities, the amenities of the area in general, detriment to the natural environment through the risks of pollution and dangers to highway safety, during the construction phase.

- 7 No development shall commence on site until a scheme of hard and soft landscaping has been submitted to and approved in writing by the Local Planning Authority, the details of which shall include:-

- location and current canopy spread of all existing trees and hedgerows on the land;
- full details of any to be retained, together with measures for their protection in the course of development;
- a detailed planting specification showing all plant species, supply and planting sizes and planting densities;
- finished levels and contours;
- means of enclosure;
- all hard and soft surfacing materials;
- retained historic landscape features and proposed restoration, where relevant.

REASON: the matter is required to be agreed with the Local Planning Authority

before development commences in order that the development is undertaken in an acceptable manner, to ensure a satisfactory landscaped setting for the development and the protection of existing important landscape features, as well as to make

adequate provision for the planting of trees and in the interests of residential amenity.

- 8** All soft landscaping comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the first occupation of the building(s) or the completion of the development whichever is the sooner; All shrubs, trees and hedge planting shall be maintained free from weeds and shall be protected from damage by vermin and stock. Any trees or plants which, within a period of five years, die, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of a similar size and species, unless otherwise agreed in writing by the local planning authority. All hard landscaping shall also be carried out in accordance with the approved details prior to the occupation of any part of the development or in accordance with a programme to be agreed in writing with the Local Planning Authority.

REASON: To ensure a satisfactory landscaped setting for the development and the protection of existing important landscape features.

- 9** No development above slab level shall commence on site until details of all eaves, verges, windows (including head, sill and window reveal details), doors, rainwater goods, chimneys, and materials have been submitted to and approved in writing by the Local Planning Authority. Development shall be carried out in accordance with the approved details.

REASON: In the interests of visual amenity and the character and appearance of the area.

- 10** Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) England) Order 2015 (as amended by the Town and Country Planning (General Permitted Development) (Amendment) (No.3) (England) Order 2020 (or any Order revoking or re-enacting or amending those Orders with or without modification), no development within Part 1, Classes A-H shall take place on the dwellinghouse hereby permitted or within their curtilage.

REASON: In the interests of the amenity of the area and to enable the Local Planning Authority to consider individually whether planning permission should be granted for additions, extensions or enlargements.

Informative

Any alterations to the approved plans, brought about by compliance with Building Regulations or any other reason must first be agreed in writing with the Local Planning Authority before commencement of work.

Informative

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to the condition “(the biodiversity gain condition”) that development may not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- (b) the planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan if one is required in respect of this permission would be Wiltshire Council.

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. For further information on exempt developments please refer to:

<https://www.gov.uk/guidance/biodiversity-net-gain-exempt-developments>

Based on the information available this permission is considered to be one which will require the approval of a biodiversity gain plan before development is begun because none of the statutory exemptions or transitional arrangements are considered to apply.

Irreplaceable habitat

If the onsite habitat includes irreplaceable habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements for the content and approval of Biodiversity Gain Plans.

The Biodiversity Gain Plan must include, in addition to information about steps taken or to be taken to minimise any adverse effect of the development on the habitat, information on arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat.

The planning authority can only approve a Biodiversity Gain Plan if satisfied that the adverse effect of the development on the biodiversity of the irreplaceable habitat is minimised and appropriate arrangements have been made for the

purpose of compensating for any impact which do not include the use of biodiversity credits.

Informative

The applicant is advised that the development hereby approved may represent chargeable development under the Community Infrastructure Levy Regulations 2010 (as amended) and Wiltshire Council's CIL Charging Schedule. If the development is determined to be liable for CIL, a Liability Notice will be issued notifying you of the amount of CIL payment due. If an Additional Information Form has not already been submitted, please submit it now so that we can determine the CIL liability. In addition, you may be able to claim exemption or relief, in which case, please submit the relevant form so that we can determine your eligibility. The CIL Commencement Notice and Assumption of Liability must be submitted to Wiltshire Council prior to commencement of development. Should development commence prior to the CIL Liability Notice being issued by the local planning authority, any CIL exemption or relief will not apply and full payment will be required in full and with immediate effect. Should you require further information or to download the CIL forms please refer to the Council's Website <https://www.wiltshire.gov.uk/dmcommunityinfrastructurelevy>.

Informative

The applicant is requested to note that this permission does not affect any private property rights and therefore does not authorise the carrying out of any work on land outside their control. If such works are required it will be necessary for the applicant to obtain the landowners consent before such works commence.

If you intend carrying out works in the vicinity of the site boundary, you are also advised that it may be expedient to seek your own advice with regard to the requirements of the Party Wall Act 1996.

Informative

The applicant should note that the grant of planning permission does not include any separate permission which may be needed to erect a structure in the vicinity of a public sewer. Such permission should be sought direct from Thames Water Utilities Ltd / Wessex Water Services Ltd. Buildings are not normally allowed within 3.0 metres of a Public Sewer although this may vary depending on the size, depth, strategic importance, available access and the ground conditions appertaining to the sewer in question.

Informative

The scheme will be operating under a District Level Licence (DLL) for Great Crested Newts.

Great Crested Newts are protected under Conservation of Habitats and Species Regulations

2017 (as amended) which implements the EC Directive 92/43/EEC in the United Kingdom, and the Wildlife and Countryside Act 1981 (as amended). Planning permission for development does not provide a defence against prosecution under this legislation.

Informative

The habitat within the proposed development site and the surrounding area is suitable for

roosting, foraging and commuting bats. An increase in artificial lux levels can deter bats

which could result in roost abandonment and/or the severance of key foraging areas.

This will likely result in a significant negative impact upon the health of bat populations

across the region. Artificial light at night can have a substantial adverse effect on

biodiversity. Any new lighting should be for the purposes for safe access and security

and be in accordance with the appropriate Environmental Zone standards set out by the

Institute of Lighting Engineers in their publication GN01:2021, 'Guidance for the

Reduction of Obtrusive Light' (ILP, 2021), and Guidance note GN08/23 "Bats and artificial lighting at night", issued by the Bat Conservation Trust and Institution of Lighting Professionals.

Informative

The adults, young, eggs and nests of all species of birds are protected by the Wildlife

and Countryside Act 1981 (as amended) while they are breeding. Please be advised that works should not take place that will harm nesting birds from

March to August inclusive. All British birds, their nests and eggs are protected under

Section 1 of the Wildlife and Countryside Act 1981 (as amended) and the Countryside

and Rights of Way Act 2000 while birds are nesting, building nests and sitting on eggs.

The applicant is advised to check any structure or vegetation capable of supporting breeding birds and delay removing or altering such features until after young birds have fledged. Damage to extensive areas that could contain nests/breeding birds should be undertaken outside the breeding season. This season is usually taken to be the period between 1st March and 31st August but some species are known to breed outside these limits.

Nic Thomas - Director of Planning, Economy and Regeneration

NOTES

- 1 **Other Necessary Consents.** This document only conveys permission for the proposed development under Part III of the Town and Country Planning Act 1990 and the applicant must also comply with all the byelaws, regulations and statutory provisions in force in the area and secure such other approvals and permissions as may be necessary under other parts of the Town and Country Planning Act 1990 or other legislation.
 - 1.1 the need in appropriate cases to obtain approval under Building Regulations. **(The Building Regulations may be applicable to this proposal. Please contact the Council's Building Control team before considering work on site);**
 - 1.2 the need to obtain an appropriate order if the proposal involves the stopping up or diversion of a public right of way or other highway (including highway verge);
 - 1.3 the need to obtain a separate "Listed Building Consent" to the demolition, alteration or extension of any listed building of architectural or historic interest;
 - 1.4 the need to make any appropriate arrangements under the Highways Act 1980, in respect of any works within the limits of a highway. The address of the Highway Authority is County Hall, Trowbridge, BA14 8JD (It is the responsibility of the applicant to ascertain whether the proposed development affects any listed building or public right of way / other highway, including highway verge).
- 2 **Appeals.** If the applicant is aggrieved by the decision of the local planning authority to grant permission subject to conditions, he may appeal to the Secretary of State for the Environment in accordance with Section 78(1) of the Town and Country Planning Act 1990 within six months of the date of this decision. (Information and forms relating to the appeals process can be found at the Planning Portal - <http://www.planningportal.gov.uk/planning/appeals>).
- 3 **Climate Change.** Wiltshire Council acknowledges the climate emergency and is seeking to make the county carbon neutral. You are encouraged to include energy efficiency that exceeds building regulations and to meet residual energy demand through renewable energy and low-carbon technologies, including high levels of electric vehicle charging points. The developer is encouraged to contact the climate team to discuss this further. climate@wiltshire.gov.uk
- 4 **CIL.** The applicant is advised that the development hereby approved may represent chargeable development under the Community Infrastructure Levy Regulations 2010 (as amended) and Wiltshire Council's CIL Charging Schedule. A separate Community Infrastructure Levy Liability Notice will be issued by the Local Planning Authority. Should you require further information with regards to CIL please refer to the Council's Website [Community Infrastructure Levy \(CIL\) - Wiltshire Council](#)
