Details of the pre-application advice received

The proposed development offers economic benefits, including job creation and enhanced retail choice, and is located on previously developed land adjacent to existing employment uses. However, it lies outside the settlement boundary and partially within a strategic employment allocation, which raises policy concerns under CP2.

The proposal must robustly address the sequential and retail impact tests, demonstrate high-quality design, and mitigate any amenity or transport impacts. Subject to these considerations being satisfactorily addressed, and assuming no overriding technical constraints, the development could be considered acceptable in principle.

On balance, the proposal has potential to be supported, but its acceptability will depend on the strength of justification provided in relation to:

- Loss of employment land,
- Sequential site availability,
- Retail impact on Devizes town centre,
- Design and amenity considerations.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
