Description of Proposed Works

Please describe the proposed works

This is a planning application for a wooden garage with tiled pitched roof to the side of Foxhill House. We have selected materials that are in keeping with our house and the area. Brick base, wood frame and cladding and grey slate tiled roof. The front doors are wood. The size is proportional to our house and it is tucked down the side behind a tall hedge and fence so barely visible from the roads. It is not visible from any of the surrounding properties.

Apparently planning is required because we are in an AONB otherwise this would fall under permitted development. There is a Horse chestnut tree in the garden which prevents the garage from being built further to the rear unless it is felled. It does not have a tree protection order and we have the fall back position of building this garage by removing the tree and siting it to the rear of the house and this would be under permitted development. As such we are hoping that this application will be approved so that we can keep the tree.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.
