PLANNING STATEMENT – change to materials

Proposed New Church Community Centre and Nursery

Archers Gate, Amesbury, SP4 7XT

for

Living Grace

March 2026

1. This statement concerns the proposed variation of condition which identifies proposed external materials. In particular, the walling materials.
2. The approved scheme identifies a mixture of timber cladding and brick.
3. The applicant having reviewed the scheme in the context of surrounding buildings and considering the longevity of the building would like to replace some of the timber boarding with brick.
4. Brick is a higher order of quality than timber.
5. Brick is the predominant material on the adjacent Bowman Centre and public house.
6. It is noted that the Bowman centre shares the same design aesthetic of a large barn structure and therefore it is felt entirely appropriate for this use of material for the church and nursery.
