Dear Sirs

**APPLICATION UNDER S.73 OF THE TOWN AND COUNTRY PLANNING ACT 1990, AS AMENDED
VARIATION OF CONDITIONS 2 AND 3 OF PLANNING PERMISSION PL/2021/014150 – PROTOTYPE GREENHOUSE**

Further to recent correspondence, this application is submitted to regularise the materials which form the prototype greenhouse.

The approved plans are updated to reflect both the materials and the addition of the 'Sustain' logo.

The current prototype is to be replaced with one which reflects the submitted drawings.

Since the grant of permission for the prototype, further detailed research and design has been undertaken which is reflected in the extant planning application for the Super Midden development. The Super Midden incorporates a future growing plateau incorporating portable, inflatable greenhouses. The submitted materials specification reflects that on the current prototype and is deemed a more appropriate and efficient material than the original submitted example.

The updated plans and drawings are not considered to give rise to any additional impacts and are submitted to regularise matters.

We hope these meet with an early approval.

Yours faithfully.

Maureen Darrie
Directors
