

This architectural elevation drawing shows a two-story house with a gabled roof. Two chimneys are located on the roofline. The left side of the house features a dormer window with a gabled roof and a double-hung window below it. The central section has a single window in the upper story and a three-pane bay window in the lower story. The right side of the house has a single window in the upper story and a large, wide multi-paned window in the lower story. The drawing is a black and white line sketch with a brown ground line at the bottom.

This is a detailed architectural elevation drawing of a two-story house. The drawing is oriented horizontally. On the right side, there is a tall, multi-story chimney. The main body of the house has a gabled roof. Two dormer windows with gabled roofs are positioned on the upper floor. Below each dormer is a large, multi-paned window. On the left side, there is a smaller gabled section with a door and a window. The drawing uses fine lines to represent architectural details like moldings and panes. A horizontal line at the bottom represents the ground level.

The floor plan for the second floor features three bedrooms, an en-suite, and a bathroom. **BEDROOM 1** is located in the top left, **BEDROOM 2** is in the top right, and **BEDROOM 3** is in the bottom right. **BEDROOM 1** includes an **EN-SUITE** and a window. **BEDROOM 2** has a window and a door leading to the central hallway. **BEDROOM 3** has a window and a door leading to the central hallway. The **BATH** is located between **BEDROOM 2** and **BEDROOM 3**. A central hallway with a staircase provides access to all rooms. The plan also shows several windows and doors throughout the layout.

Floor plan of the first floor of a house. The plan shows a large sitting room on the left, a dining area on the right, a kitchen below the dining area, a central hall with a staircase, a cloakroom, and a boot room/utility area at the bottom right. The plan includes walls, doors, windows, and a staircase.
