

SAFETY, HEALTH AND ENVIRONMENTAL INFORMATION
Refer to the relevant Construction (Design and Management) documentation where applicable.
It is assumed that all works on this drawing will be carried out by a competent contractor, working where appropriate to an approved method statement.

NOTES

1. Do Not Scale from this drawing, use figured dimensions only. All dimensions are in meters.
 2. This drawing is to be read in conjunction with all other relevant drawings/specifications.
 3. This drawing is to be read in conjunction with and checked against all engineering details, landscape architects, specifications, geotechnical engineering and documentation provided.
 4. This drawing is subject to approvals from relevant statutory bodies.
 5. All the above requirements shall apply unless otherwise stated in the general arrangement drawings/specification. In the event of a contradiction the contract specific documents shall be deemed to prevail.
 6. The contractor is to check and verify all site dimensions and levels, including existing sewer invert levels and utilities, prior to start on site.
 7. Positions of existing services/structure undertakers apparatus adjacent to or crossing proposed excavations are to be confirmed prior to start on site.
 8. This drawing is schematic for clarity only, positions of pipe runs and manholes may vary on site due to site conditions.
 9. All proposed structures, including walls, foundations, proposed, root barriers (type to be approved) are required to prevent structural damage to be made immediately.
 10. Any anomaly or contradictions between any of the above is to be reported immediately.
 11. The contractor is to comply in all aspects with the current British standards, building regulations and building legislation etc.
 12. It is the responsibility of the contractor to execute the works at all times in strict accordance with the requirements of the health and safety Act 1974, and the C.O.V. REGULATIONS 2015.
- The contractor will be deemed to have allowed for full compliance.
