

Highway Development Control Consultation Response

Planning Application Ref: PL/2026/01341

Site Address: Land at Midge Hall Nurseries, Royal Wootton Bassett, Swindon, SN4 8ER

Proposal: The proposed works comprise the removal of existing 12m monopole supporting 3 no. antennas and the installation of a new 17.5m monopole supporting 3 no. antennas on an open headframe, 1 no 300mm transmission dish, 1 no. 600mm transmission dish and ancillary development there to including 18 no. Ericsson Radio Systems (ERSs).

Date of Consultation Response: 25/03/2026

Given there will be no visual obstruction, and the infrastructure will be remote from the highway there is no principle highway objection.

However, I note the access arrangements within the application are incorrect, the map extract above shows the location of the access from the public highway. All routing for HGVs should be via the south avoiding the Weight Restrictions within the Parish of Purton. Therefore, a holding objection is required for the applicant to provide an updated plan 100 1A indicating the access arrangements from the classified C414 and a revised routing plan from the M4 junction 16 via the Coped Hall Roundabout.

I note there should be a consultation request sent to structures team to ensure that all technical requirements are met. I have asked HDM/CRU to forward to structures.
