

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes

☐ No

4.2 If no, what earlier date did you agree with the LPA?

4.3 How have you met 'what counts towards your BNG'?

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on-site, including to avoid or minimise the impact on irreplaceable habitats.

The development will replace an existing building on an area of existing hardstanding. The proposed replacement building is located partially on the existing developed land encroaching as little as possible onto the modified grassland to the east, with additional orchard planting to the east of the proposed building.

This includes other specified strategies if you do not have a local nature recovery strategy.

☐ Yes

☒ No

4.6 How will you achieve the target net gain percentage?

- ☒ On-site
- ☐ Off-site
- ☐ Both-site

4.7 Are any of your on-site enhancements considered 'significant'?
