

Shared Surface Streets

Shared surface streets add more informality to a street and will be used only where there is no through traffic. These streets will help introduce a mews/courts character to the development similar to the older streets behind the High Street and Abingdon Court Farm.

Shared Surface Street Principles

Garden Frontage	1-2m
Footway	2m - Shared
Carriageway	4.8 - 5.5m - Shared
Verge	Optional/Landscape in street
Parking	On plot to side of property and frontage parking

Examples from in and around Cricklade

Tighter and informal shared street at the Hitchings

Shared surfaces with parking areas at Abingdon Court Farm
