Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible. The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

The questions below will help determine if the proposals are eligible for this permitted development right.

Is your proposal for a change of use from an agricultural building (and any land within its curtilage) to one of the following uses:

- General Industrial (Use Class B2) for the processing of raw goods, excluding livestock, which are produced on the site and are to be sold on the site (which can also be together with goods ancillary to the processing of those raw goods).
- Storage and Distribution (Use Class B8)
- Hotels (Use Class C1)
- Shops; Financial/Professional services; Restaurants and Cafes; Offices; Business; Indoor Sport; Recreation, or Fitness (Use Class E)
- Outdoor sport or recreation, not involving motorised vehicles or firearms (Use Class F2 (c))
- Use for the purposes of agricultural training

☒ Yes

☐ No

Was the use of the site on 3 July 2012 (or the last use before that date) solely for an agricultural use as part of an established agricultural unit?

☒ Yes

☐ No

Will the total combined floor space in the building(s) (previously and in this proposal) changed in use under this permitted development right exceed 150 square metres?

☒ Yes

☐ No

Will the total combined floor space in the building(s) (previously and in this proposal) changed in use under this permitted development right exceed 1000 square metres?

☐ Yes

☒ No

Is any part of the land, site or building:

- in a safety hazard area;
- in a military explosives storage area;
- a scheduled monument (or the site contains one)
- a listed building (or within the curtilage of a listed building)

☐ Yes

☒ No

Description of Proposed Works, Impacts and Risks

Please describe the proposed development:

The proposed development comprises the conversion of an existing agricultural building into 3no. padel courts under Class R of the Town & Country Planning (General Permitted Development) (England) Order 2015. The 3no. padel courts will fall under Use Class E(d) which is consistent with the requirements of the Order.

The proposed changes to the building will be limited to internal alterations only, and no works are proposed to the external elevations of the building.

Parking provision can be accommodated, with sufficient turning space to allow vehicles to enter and exit the site in forward gear.

Please provide details of any transport and highways impacts and how these will be mitigated:

Access to the site would be via the southern access of Rushall Drove. This is an existing access, previously used by vehicles to enter the yard. The access is wide enough to accommodate vehicles and there is sufficient visibility to both the east and west. The traffic generated would be minimal and would have little impact on the traffic movements along Rushall Drove when compared to the continuation of the agricultural use of the building.

Please provide details of any noise impacts and how these will be mitigated:

The site is not located in close proximity to an adverse source of noise, such as transportation infrastructure, industry or housed livestock that would otherwise impact on a sports use. The proposed use of the building as padel courts would similarly not have any impacts in terms of noise on any nearby land.

Please provide details of any contamination risks and how these will be mitigated:

No contamination risks have been identified on the site as the buildings benefit from an existing concrete slab that will be retained.

Please provide details of any flooding risks and how these will be mitigated.

A flood risk assessment should accompany the application where the site:

- is in Flood Zones 2 or 3; or
- is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency).

[Check if your site location is in Flood Zone 2 or 3 online.](#)

Check with your Local Planning Authority to see if your site is in an area with critical drainage problems.

The site is located within Flood Zone 1 – with low risk of fluvial flooding and surface water flooding.
