

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

Only low distinctiveness habitat (modified grassland) will be impacted. Location chosen avoids any impacts on higher distinctiveness habitats.

Only answer this question if you're planning to use off-site biodiversity units (250 words).

It is not possible to provide new habitat creation on-site.
