

11th April

To whom it may concern,

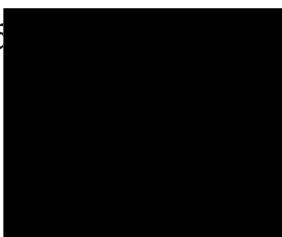

PL/2026/01383

I support this application at Blind Lane.

Having lived in the village all my life I would say that this application is by far the most sensible and logical place for any extension to the village and a continuation of existing housing.

Its location means there is short and easy access to the village in one direction and out into the countryside in the other direction. The wide green boundaries around the edges of the site will integrate it into countryside.

Regards

Pete Slade
