Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

Isolated repairs are proposed to the existing roof coverings, together with minor brickwork and repointing repairs to the chimney of No. 2.

Repairs to the existing timber sash windows are also proposed, including the replacement of one window where repair is not considered feasible. The front doors to Nos. 2 and 3 will also be reinstated to a more traditional design, replacing the existing modern doors which are not in keeping with the character and appearance of the cottages.

All works will be undertaken on a like-for-like basis, using appropriate traditional materials and methods to ensure the historic character and aesthetic qualities of the cottages are preserved.

All three properties are currently experiencing varying degrees of structural movement believed to be associated with subsidence. To address this, a resin injection stabilisation system is proposed to improve ground stability and help mitigate further structural movement.
