Informative

- 1 The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for development of land in England is deemed to have been granted subject to the condition (biodiversity gain condition) that development may not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
(b) the planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan, if one is required in respect of this permission would be Wiltshire Council.

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. For further information on exempt developments please refer to:

<https://www.gov.uk/guidance/biodiversity-net-gain-exempt-developments>

Based on the information available this permission is considered to be one which will not require the approval of a biodiversity gain plan before development is begun because one or more of the statutory exemptions or transitional arrangements is considered to apply.
