RE: Wendy Cottage
SN16 9BT

I wish to object to the revised
planning application to extend
Wendy Cottage.

There seems to be little difference
between the previous planning application
and the latest one

The planned extension would be very
close - a matter of feet - to the
the Town Hall, which dates
from the 12th Century, a grade II
Listed building, considered to be
of great archaeological significance

Yours sincerely

Copy to Melmesbury
Town Council

Dear Sir/Madam

Repairs to Mediaeval Town Wall rear of Silver Street, Malmesbury

You may be aware that repairs are being undertaken to sections of Malmesbury's former Town Defences under Malmesbury Conservation Area Partnership Scheme. Repairs to the rear of 32 Silver Street were undertaken last year and it is proposed to complete the length of wall accessible off Silver Street as the next phase of work.

This wall dates from the 12th Century; it is a Grade II listed building and is also considered to be of great archaeological significance. It has proved impossible to ascertain who owns the wall (deeds for 30 and 32 Silver Street do not include the wall within their boundaries). For this reason, North Wiltshire District Council agreed to undertake the repair work to the Town Wall, on the understanding that it does not assume ownership or future responsibility for future maintenance. I note that there is a blockwork boundary wall which comes to within 150mm of the wall and confirm that every effort will be made to prevent damage to this wall.

My purpose in writing is to ask for your agreement to this work being undertaken. If you agree to the Council's proposed action, please complete the enclosed copy of this letter and return it to me in the enclosed pre-paid envelope.

Yours faithfully,

pp Head Of Conservation & Urban Design

I agree to the above work being undertaken by North Wiltshire District Council
