

66 Coronation Road, Atworth, Melksham SN12 8HU
Proposed Works to Tree in a Conservation Area

29 Apr 2026

The property lies within the Atworth Conservation Area; the property is not listed.

The tree for proposed works is an overgrown cotoneaster with a height of approximately 5 metres situated at the south edge of the property. The tree encroaches slightly into Greenland Close by approximately 1.5 metres and also needs constant trimming to avoid the SSE mains power supply cable feeding the property. The tree is also adversely affecting the adjacent stone wall. Proposed work is complete removal to ground level.

Fig. 1: Location of 66 Coronation Road, Atworth. Access to the main part of the property is via Coronation Road, which is a council-adopted public road. Greenland Close is privately owned.
