Subject: RE: PL/2026/02068, PL/2026/02067, and PL/2026/02066

Dear Isobella

Thank you for the update.

The reason for the two-year extension of time is to align with the application(s) at Whetstone Quarry, which is positioned on the Glos. and Wiltshire border. Our Whetstone EoT applications (with Wiltshire ref. PL/2025/03084 and Glos. CC ref. 25/0015/CWS73M) would allow mineral operations to continue until 31 December 2028, with site restoration achieved by 31 December 2029. Application ref. PL/2025/03084 is due to be approved subject to a deed of variation on the s.106 agreement, work on which is on-going.

This is the main driver behind the extension sought at Dairy Farm. It will allow the plant site at Whetstone to be removed, unlocking the consented reserve underneath it.

Operations at Dairy Farm will align to the progress made at Whetstone Quarry.

I hope this assists.

Kind regards

Antony
